

Math Department PLC Meeting

September 28,2011

1. Pyramid of Intervention:
 - a. Handout to supplement agenda

2. Dept. level smart goal:60% of all 7th, 8th, and 9th grade Math students at Twin Spruce Jr. High will reach their own RIT Target goal.

3. Long term planning
 - a. Staffing needs- n/a yet

 - b. Technology- n/a yet

 - c. Curriculum changes – spent the bulk of the meeting on this issue as the Math department has a huge challenge in the coming year to try to align the new common core standards with our curriculum.
Possible solutions are moving all the current courses down a level which would put the majority of students in Geometry by 9th grade. Meeting for all secondary Math teachers will be on Oct. 19th.

Next Dept. PLC will be in Nov.
