Campbell County School District No. 1

WWW.CCSD.K12.WY.US

Educational Services Center 1000 West Eighth Street • PO Box 3033 Gillette, Wyoming 82717-3033

November 15, 2005

Citizens of Campbell County and members of the Board of Education Campbell County School District No. 1

It is our pleasure to furnish you with the 2005 Comprehensive Annual Financial Report (CAFR) of Campbell County School District No. 1, for the fiscal year ended June 30, 2005. The basic financial statements in this report provide a comprehensive overview of the financial position and the results of operations of Campbell County School District No.1 as a whole, while the detailed financial statements describe specific activities of each fund and account group used in the accounting for the District's financial transactions. With the technical assistance of Shuck, Bennett & Weber, Certified Public Accountants, this report was prepared by the District's Instructional Support Division, Accounting Department, in accordance with accounting principles generally accepted in the United States of America and reporting standards of the Governmental Accounting Standards Board. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with management.

We believe the data, as presented, are accurate in all material respects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of Campbell County School District No.1 as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activity have been included.

ORGANIZATION OF THE REPORT

For the convenience of users we have divided this comprehensive annual financial report into four major sections, described as follows:

- ➤ The **introductory section** includes this transmittal letter, the list of principal officials, the organizational structure of Campbell County School District No. 1 and a copy of the Certificate of Excellence from fiscal year 2004.
- > The **financial section** includes the government-wide financial statements; the fund financial statements; the combining statements and individual fund schedules; the independent auditor's opinion of the financial statements and schedules as well as the Management's Discussion and Analysis letter.
- The **statistical section** is unaudited data which includes selected financial and demographic information, generally presented on a multi-year basis.
- The single audit section contains information relating to the District's single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," and the independent auditor's reports on compliance and internal control.

The report provides valuable management information. Copies will be made available to the Chamber of Commerce, major tax payers, public libraries in our area, financial rating agencies as well as other interested parties.

THE REPORTING ENTITY

The financial reporting entity includes all the funds of Campbell County School District No. 1 as well as that of its Discretely Presented Component Unit, the Campbell County Board of Cooperative Higher Education Services (BOCHES) and the Blended Component Unit, Campbell County Community Public Recreation District (CCCPRD). The Campbell County Board of Cooperative Higher Education Services (BOCHES) and the Campbell County Community Public Recreation District (CCCPRD) are fiscally dependent upon the District. Component units are legally separate entities for which the primary government is financially accountable. The blended component unit is reported as a Special Revenue Fund in the District's financial records. Financial activity of the Campbell County Board of Cooperative Higher Education Services (BOCHES) is reported in a separate column in the basic financial statements to emphasize that it is legally separate from Campbell County School District No. 1 and to differentiate their financial position, results of operations, and cash flows from those of the District.

GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

Campbell County School District No. 1 encompasses 4,755 square miles and includes the towns of Gillette, Recluse, Rozet, and Wright. Approximately 7,140 students are taught in one senior high school, one alternative high school, one junior/senior high school, two junior high schools and fifteen elementary schools (five of which are rural).

School staff, including part time, totaled 1,355 in 2004-2005. Of the total, 696 were certified staff including teachers, specialists, and administrators. Non certified staff including clerical, custodial, food services, aides, maintenance, and bus drivers totaled 659. Staff totals do not include substitutes.

The educational program is the most comprehensive in the region with a broad spectrum of courses in the high schools ranging from basic to general to honors and advanced placement. Recent building renovations and construction projects have produced a pleasant and effective system of school buildings, library media centers, playgrounds, and athletic facilities. Elementary schools have been designed to enhance the neighborhood school concept in the interest of community involvement and effective instruction.

As an independent School District, the Board of Trustees for Campbell County School District No. 1 is composed of seven citizens each elected to a four-year term. Based upon legislative authority codified in the Wyoming Education Code, the trustees: (1) have the exclusive power to manage and govern the District; (2) can acquire and hold real and personal property, sue and be sued, and hold all rights and titles to the school property, (3) shall have the power to levy and collect taxes and to issue bonds, (4) can contract for appointed officers, teachers and other personnel as well as for goods and services, and (5) have the right to eminent domain to acquire real property necessary for the District.

The purpose and responsibility of Campbell County School District No. 1 is to provide an efficient educational system for the children enrolled in public schools within its boundaries, whereby each child has access to programs and services that are appropriate to his or her educational needs. In addition to the regular educational program, Campbell County School District No. 1 offers comprehensive programs in the areas of vocational education, special education, English as a second language and a full range of compensatory programs.

In the last several years the economy of the State of Wyoming fluctuated due to the volatility in the energy related industries. The major effect on Campbell County School District No.1 has been significant fluctuations in county property values. (See Table 6 in the Statistical Section, Assessed and Estimated Actual Value of Taxable Property).

MAJOR INITIATIVES

During the year: Campbell County School District No. 1 continues to be a leader in Wyoming as the state itself continues to be a national leader in public education.

Testing

During the year, Campbell County School District No. 1 participated in the Wyoming Comprehensive Assessment System (WyCAS). The results for grades four, eight and eleven showed our students to be very comparable with students throughout Wyoming.

Campbell County School District No. 1 uses the TerraNova as the norm referenced assessment for grades three through nine.

Median percentile scores for the TerraNova which includes Language Arts, Reading, and Math are seen in Figure One. Figure One

| Grade 3 | Grade 4 | Grade 5 | Grade 6 | Grade 7 | Grade 8 | Grade 9 |
|----------|----------|----------|----------|----------|----------|----------|
| 74 % ile | 67 % ile | 66 % ile | 70 % ile | 59 % ile | 59 % ile | 69 % ile |

The average American College Testing (ACT) scores for Campbell County School District No.1 during the 2004-2005 school year; 20.9 for Campbell County High School, and 20.7 for Wright Junior/Senior High School. State and national averages were 21.4 and 20.9, respectively.

During 2004-2005, an average of 93.85% of Campbell County School District No. 1 students attended class each day, compared to 94.26% in 2003-2004; 94.48% in 2002-2003; 94.2% in 2001-2002; and 94.19% in 2000-2001. Students absent for school-sponsored academic or athletic activities were not considered absent for attendance purposes.

The total dropout count for the 2004-2005 school year was 110 students, 3.13% of the secondary enrollment of the district. This percentage compares to 3.13% in the 2003-2004 school year, 3.18% in the 2002-2003; 3.4% in 2001-2002; 3.51% in 2000-2001; 2.18% in 1999-2000; 2.76% in 1998-1999; 3.48% in 1997-1998 and 3.3% in 1996-1997.

Several interventions contribute to this relatively low dropout rate. The District's alternative high school, Westwood High School and has been very successful in recruiting students at high risk of becoming dropouts. Many students complete their education in this alternative setting who would not have succeeded or returned to our other high schools. Over the past seven years, 314 students have graduated with regular diplomas from this school.

A revised discipline policy, has increased administrator/student interaction, has provided additional counseling for students in the In-school Discipline and Supervision Program (IDSP), and has required personal contracts to put students at risk of dropping out of school back on track.

GASB 34 Reporting Model

The Governmental Accounting Standards Board (GASB) established a new financial reporting model for state and local governments in GASB No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Campbell County School District No.1 was required to adopt this new reporting model for its fiscal year 2003 annual report. The District choose early implementation of this pronouncement for its fiscal year 2002 annual report.

GASB Statement No. 34 basically established new requirements for school districts' annual financial reports. Following are the main financial report changes:

> Management's Discussion and & Analysis (MD&A), is primarily a narrative introduction, overview and analysis to the basic financial statements, and can be found starting on page 3 in the Financial Section after the Independent Auditors Report.

> District-wide Financial Statements, also known as the Government-wide statements, which reports a clearer picture of the organization as a single unified entity. These new financial statements, the *Statement of Net Assets* and the *Statement of Activities* complement rather than replace traditional fund-based financial statements and must distinguish between governmental and business-type activities of the primary governments and its discretely presented component units by reporting each in separate columns. Fiduciary activities, whose resources are not available to finance school programs, are excluded from these reports.

> Fund Financial Statements which require districts to report information about their most important or major funds separately and with their non major funds combined. Campbell County School District No. 1 has three major funds meeting the major fund criteria for these reports, General Fund, Debt Service Fund and the Capital Projects - Capital Construction Fund. > Required Supplementary Information (RSI) other than the MD&A includes the capitalization and depreciation of all exhaustible capital assets.

To further enhance the new financial report information, the Wyoming Department of Education has expanded the minimum Function/Program category groups required from nine to fifteen. With this change the ten previous fiscal year comparative information is no longer easily attainable. Without having the previous fiscal year numbers restated the comparative data needed for tables in the Statistical Section have an "N/A" where restated numbers would be needed. We apologize for any inconvenience this decision may cause.

INTERNAL AND BUDGETARY CONTROL

In developing, evaluating, and improving the District's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal, state and local grants, Campbell County District No.1 has the responsibility for providing an adequate internal control structure to ensure compliance with applicable laws and regulations related to these grants. This internal control structure is subject to periodic review and revision by management.

Campbell County District No.1 has adopted Board of Trustee policies that specify how state and district student performance standards have affected planning for facilities and annual budget priorities beyond fixed costs. The programs provided have been determined to be sufficient for students to meet state and district content and performance standards. The administration monitors building operations to assure all legal requirements, whether federal, state, or local, are met in each school.

To help meet the requirements of the *No Child Left Behind Act* the District is providing additional resources to each school based on their individual improvement plan. Each school has developed an improvement plan based on examination data of student assessments.

Campbell County District No.1 utilizes a line item budget of proposed expenditures and the means of financing them. The emphasis of the budget process is to identify the activities requiring resources and to rank administratively those activities according to the needs of the entire District. Budgetary control is maintained by the Finance Department at the function level by organizational unit. Purchase commitments, personnel actions, or other obligations which would result in an overrun of appropriated funds are not released until additional appropriations are made available. Open encumbrances are reported as a reservation of fund equity at June 30, 2005, on the Balance Sheet of the Annual Financial Report.

Detailed reports are available monthly to building principals and supervisors showing the status of budgets for which they are responsible. The reports summarize the monthly transactions and remaining budgeted funds allocated for goods and services among the programs so managed.

CASH MANAGEMENT

The Wyoming Education Code of 1969 (as amended - 1999) outlines the instruments which may be used for the investment of public funds (W.S. 9-4-831).

Interest earnings on investments during the 2004-2005 school year for all governmental funds of \$975,584 represented 1.018 percent of the District's total governmental revenues. All cash and certificates of deposit of the District were at all times either insured by the Federal Deposit Insurance Corporation (FDIC), or were secured by collateral of at least 102 percent.

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases commercial insurance for claims and risks of loss. These coverages and the related deductibles are listed in Figure One.

| Summary of Insurance Coverage | | | | | | | | |
|--|--------------------------------|------------|--|--|--|--|--|--|
| Type of Claim | Amount of Coverage | Deductible | | | | | | |
| Claims governed by the Wyoming Governmental Claims Act: Each general liability claim to any claimant for any number of claims arising out of single transaction/occurrence For all claims for all claimants arising out of a single transaction/occurrence | \$ 250,000 \$ 500,000 | | | | | | | |
| Claims not governed by the Wyoming Governmental Claims Act: Each general liability claim | \$ 2,000,000 | \$ 100,000 | | | | | | |
| Buildings and contents | \$211,434,800 | \$ 5,000 | | | | | | |

Campbell County District No. 1 carries faithful performance/honesty bond coverage on all employees in the amount of \$50,000. The bond covers losses to the District through dishonesty of an employee acting alone or in collusion with others. In addition, the District's Board Treasurer is properly bonded.

The District has elected to provide medical, dental and prescription insurance benefits through a selffunded group program. The medical insurance is administered by Blue Cross-Blue Shield; dental by Delta Dental and prescription by Innoviant. Stop-loss coverage of \$125,000 per insured is purchased by the District to limit the risk of loss in this program. Employees working 20 or more hours per week are eligible. Employee contributions are required and based on an employee's full time equivalency and type of coverage (Single, Employee + Spouse, Employee + Dependent(s), or Family). Non voluntary plans paid totally by the District for all employees working 20 or more hours per week include, an accidental death policy for all employees of \$50,000; a life insurance, based on annual salary with a minimum of \$10,000 and a maximum of \$50,000; short and long term disability coverage providing 60 percent of an employee's monthly salary, with a maximum of \$2,500 per month.

In addition, voluntary plans with premiums paid entirely by the employee include a vision service plan, term life insurance plans, supplemental health insurance plans, and tax sheltered annuities.

INDEPENDENT AUDIT

The financial statements of the District are audited annually by independent certified public accountants selected by the Board of Education. The independent auditors' report has been included in this report.

RECOGNITION FOR FINANCIAL REPORTING

The Association of School Business Officials International (ASBO) awarded Campbell County School District No.1 a Certificate of Excellence in Financial Reporting for its Comprehensive Annual Financial Reports for all fiscal years ended June 30, 1991 through June 30, 2004 consecutively.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Excellence is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Excellence Program requirements, and we are submitting it to the Association of School Business Officials International.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not be accomplished without the diligent and dedicated services of Rhea Betts, the District's Accounting Manager and we would like to express our appreciation for her contribution. Also, we would like to express our appreciation to other departments, schools, and individuals who assisted in its preparation. Moreover, we wish to thank and express appreciation to the administrators and other employees of Campbell County District No.1 for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner.

Respectfully submitted,

Boyd Brown Associate Superintendent for Instructional Support Richard Strahorn, Ed.D. Superintendent of Schools

INDEPENDENT AUDITOR'S REPORT

Governing Board Campbell County School District No. 1 Gillette, Wyoming

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of **Campbell County School District No. 1** as of and for the year ended June 30, 2005, which collectively comprise the **District's** basic financial statements as listed in the table of contents. These financial statements are the responsibility of the **District's** management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of **Campbell County School District No. 1**, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 4, 2005, on our consideration of **Campbell County School District No. 1's** internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management discussion and analysis on pages 3 through 12 is not a required part of the basic financial statements but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise **Campbell County School District No. 1's** basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is also not a required part of the basic financial statements of **Campbell County School District No. 1**. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Gillette, Wyoming August 4, 2005

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited)

This section of the annual financial report presents the management's discussion and analysis (MD&A) of the financial performance of Campbell County School District No.1 during the fiscal year ending June 30, 2005. This report should be read in conjunction with the letter of transmittal, in the Introductory Section, and the financial statements. The management's discussion and analysis report provides an overall financial performance review of the District as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2005 are as follows:

- The district's financial status improved. In total, net assets increased \$13,200,532 which represents an 15.031 percent increase from fiscal year 2004.
- Overall revenues were \$92,756,531, exceeding expenses by \$13,200,532.
- General Revenues accounted for \$83,731,926 in revenue or 90.271 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$9,024,605 or 9.729 percent of total revenues of \$92,756,531.
- The district reduced its outstanding long-term debt by \$2,962,434 or 25.112 percent.
- The District had \$79,555,999 in expenses; only \$9,024,605 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$83,731,926 were adequate to provide for these programs.
- Among major funds, the General fund had \$70,052,763 in revenues and \$63,182,000 in expenditures. The General Fund's balance increased \$7,315,690 over 2004.
- The net assets of governmental activities increased by 14.888 percent or \$13,049,890 and the net assets of the business-type activity also increased 89.580 percent or \$150,642.

Overview of the Financial Statements

This annual report consists of a series of financial statements, and notes to those financial statements, and is followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the district's budget for the year. These financial statements are organized so the reader can understand Campbell County School District No.1 as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The *district-wide financial statements* and the *governmental funds statements* are the two basic kinds of financial statements presented.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

Reporting the District as a Whole

District-wide financial statements

The Statement of Net Assets and the Statement of Activities are the two district-wide financial statements presented. The district-wide financial statements are separated into two categories (Governmental activities and Business-type activities) and provide both short-term and long-term information on the overall financial status of the District. These reports list the District's programs and services in defined function classifications, established by the State of Wyoming, and are presented to answer the readers question, "How did Campbell County School District No.1 do financially during fiscal year 2005?" Business-type activities are where the District charges fees to help cover the costs of certain services it provides. In the District's case, there is only one business-type activity, the Enterprise Fund-Food Service. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting considers all the current year's revenues and expenses regardless of when cash is received or paid. These two statements also report the net assets and changes in those assets. This change in net assets is important because it tells the reader if the financial position of the District as a whole has improved or diminished.

Reporting the District's Most Significant Funds

Fund financial statements

The fund financial statements provide the next level of detail by focusing on the individual parts of the District and by reporting the operations in more detail than the district-wide statements. Fund financial statements focus on the most significant funds with all other non-major funds presented in total in one column. Campbell County School District No.1 uses many funds to account for a multitude of financial transactions. The District's major governmental funds are the General Fund, the Debt Service Fund and the Capital Projects - Capital Construction Fund.

Fund Types

Campbell County School District No.1 has three kinds of funds:

Governmental funds statements

Most of the District activities are reported in governmental funds, which generally focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are reconciled in the financial statements.

Proprietary funds statements

Services for which the district charges a fee are generally reported in the proprietary funds and are reported in the same way as the district-wide statements which offer short and long-term financial information about the activities the district operates like a business. The Enterprise Fund - Food Service is the only fund in this category for the District. The other type of a proprietary fund is an internal service fund. An internal service fund may be used to report activities that provide supplies and services for other programs and activities. The District currently uses the internal service fund to account for the financing and operations of its selffunded insurance health plan.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

Fiduciary funds statements

Fiduciary funds are held by the District as the trustee, or fiduciary, for assets that belong to others. The District has four funds in this category; the Agency Funds of Student Activities, Flexible Benefits and Early Retirement. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The district excludes these activities from the district-wide financial statements because it cannot use these assets to finance its own operations.

Financial Analysis of the District as a Whole

The Statement of Net Assets provides the perspective of the District as whole. Figure A provides a summary of the District's net assets for 2005 compared to 2004:

| figure A | | | | | | | |

Figure A

The District's combined net assets were higher on June 30, 2005, than they were on June 30, 2004, increasing more than 15.031 percent to \$101,020,920 (See Figure Table A). This improvement in the district's financial position came from its governmental activities, with its net assets increasing \$13,049,890 to \$100,702,114. The net assets of the District's business-type activities increased \$150,642 to \$318,806.

Changes in net assets

The District's total revenues were \$92,756,531. (See Figure B)

and federal aid for specific programs contributed \$6,370,053 or 6.868 percent, with charges for service of \$2,654,552 or 2.862 percent, capital grants restricted for debt service of \$1,500,000 or 1.617 percent, grants and contributions not restricted of \$8,886,948 or 9.581 percent. The remainder, \$3,385,705 or 3.650 percent, resulted from interest earnings, other local revenue, and miscellaneous sources.

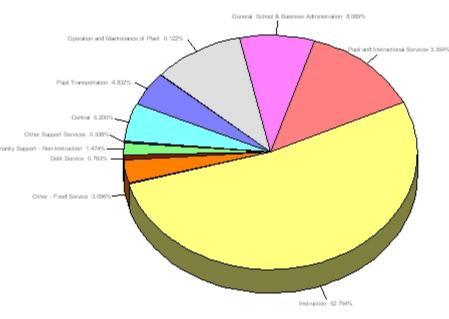

The total cost of all programs and services were \$79,555,999. Of the District's expenses, \$52,592,649 or 66.108 percent are directly related

to the areas of instruction, and pupil and instructional staff. Pupil transportation with costs of \$3,844,481 represents 4.832

percent, operational and maintenance of plant services costs totaled \$8,052,935 or 10.122 percent of total expenses. The areas of administration: general, school and business, had expenses totaling \$6,419,171 or 8.069 percent. Central, which is the office of human resources and the costs associated with the selffunded health insurance program, totaled \$4,137,175 or 5.200 percent of total expenses, debt service expenses totaled \$606,617 or .763 percent. Other support services and community support expenses totaling \$1,440,168 represent 1.810 percent while the enterprise fund-food service totaled \$2,462,803 or 3.096 percent of total District expenses.

Expenses for Fiscal Year 2005

Fund types presented: General, Special Revenue, Capital Projects, Debt Service and Proprietary-Enterprise

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

Total revenues surpassed expenses, increasing net assets by \$13,200,532. Both the governmental activities and the Enterprise Fund - Food Services contributed to the Districts financial health this fiscal year.

Governmental Activities

Revenues

Specific revenue source changes for 2004-2005 compared to 2003-2004 were:

- From local and county sources, an additional \$1,302,003 was received due to an increased assessed valuation.
- From the State of Wyoming, an additional \$3,549,625 was received; a \$224,037 increase for Major Capital funding, and a \$546 decrease in taxes, with the remaining changes directly associated with Major Maintenance funding which increased \$2,531,846 when fiscal year 2006 funding was received in fiscal year 2005.
- From federal sources, an additional \$45,688 was received for new and increased funding of special revenue grant projects

Expenses

Figure C presents the cost of nine major district activities: instruction, pupil and instructional staff, general, school and business administration, operation and maintenance of plant, pupil transportation, central, other support service, operation of non-instructional service-community support and debt service. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the district's taxpayers by each of these function.

Figure C

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

Governmental Activities - Expenses (continued)

Total cost of governmental activities for 2004-2005 totaled \$77,093,196. To achieve a net cost to the district for governmental activities monies received from federal and state governments, which subsidized certain programs with grants and contributions, totaling \$5,619,723 and Charges for Services of \$888,891 are deducted bringing the total net cost of services to \$70,584,582.

Specific fund expenditure changes before GASB 34 adjustments for 2004-2005 compared to 2003-2004 showed:

- Special revenue fund expenditures in total decreased by \$436,063. Three of the seven special revenue fund groupings had significant changes worth mentioning. Increased spending was seen by the "K' Fund which added \$822,547, an additional \$129,379 in Technology spending and an additional \$58,262 was due to increased awards to the District from federal and state sources. Decreased funding from the State of Wyoming for fiscal year 2005 for major maintenance project expenditures resulted in a reduction of \$564,750. The remaining three special revenue fund groupings each had adjustments which in total accounted for the remaining decrease of \$881,501.
- The general fund expenditures decreased by \$3,054,044. Spending in areas directly in contact with students increased \$2,563,456; instruction by \$1,879,460 and pupil and instructional staff by \$683,996. Administrative and Business areas increased \$112,594, maintenance \$143,423, transportation services \$145,710, with other support increasing by \$75,292. Spending areas where decreases were found were in the debt service of \$184,300, capital outlay of \$163,290, community services of \$89,665 and in the central area of \$5,657,264 due to the reclassification of the District's self-funded insurance health plan.
 - An overall increase in capital construction fund spending of \$435,569.

Business-Type Activities

•

Revenues of the District's business-type activities increased 16.298 percent to \$2,613,445 and expenses rose 8.723 percent to \$2,462,803. (refer to Figure B) Food Service revenues exceeded expenses by \$150,642, accounting for the increase in the net assets of the business-type activities.

Financial Analysis of the District's Funds

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget one time. This budget amendment falls into two categories; budget transfers between function classifications to properly record expenditures and increases in appropriations to recognized actual funding received from county, state and federal sources and to prevent budget over runs.

Although the District's final budget for the general fund anticipated that revenues and expenditures would result with a deficit of \$2,249,960 which were to be covered by contingency funding, the actual results for the year show a \$7,176,069 surplus. The actual revenues were \$69,913,263 or \$6,377,169 higher than expected. Local and County sources brought in an additional \$7,211,620 while State and Federal sources brought in \$834,451 less than budgeted.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

The actual General Fund expenditures were \$63,182,000 or \$3,126,605 below budget. With the anticipated budget containing a \$1,999,954 contingency actual expenditures show an additional savings \$1,126,651. The General Fund expenditures had one area, central, which exceed its budget appropriations for fiscal year 2004 - 2005 by \$112,202, and was due to the District's Early Retirement Agency Fund being recorded at present value. More detailed information about the District's Early Retirement Agency Fund being recorded at present value. More detailed information about the District's Early Retirement Agency Fund in Note 2 J of the Notes to the Basic Financial Statements.

Capital Asset and Debt Administration

Capital Assets

By the end of June 30, 2005 the District's governmental activities had invested \$150,687,808 before depreciation, in a broad range of Capital Assets, including land, school buildings, athletic facilities, computer and audio-visual equipment, vehicles and administrative offices. This represents a net increase of \$669,803 or .447% from fiscal year 2003-2004. Total depreciation expense for the year was \$4,065,228 which brings total accumulated depreciation to \$68,636,619 for fiscal year ending June 30, 2005. (See Figure D)

Governmental Activities in Capital Assets had a decrease in land holdings of a \$1,802,662; net increase totaling \$3,017,270 in the areas of Buildings and Buildings Improvements, and Improvements other than Buildings; net increase of \$203,495 for new vehicles and new capital asset equipment.

At fiscal year end, the District had contractual purchase commitments approximately totaling \$1,466,000, which will be funded by the Special Revenue Fund - Major Maintenance and the Major Capital Projects Fund. More detailed information about capital assets can be found in Note 3 C of the Notes to the Basic Financial Statements.

Debt Administration / Long Term Debt

On June 30, 2005, the District had \$8,834,587 in general obligation bonds and other long-term debt outstanding or a reduction of 25.112 % from June 30, 2004 as shown in Figure E. (More detailed information about the District's long-term liabilities is presented in Note 3 G of the Notes to the Basic Financial Statements.) On June 30, 2005, the District's overall legal debt limit was \$325,872,832 leaving a legal debt margin of \$319,617,832 available.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the district was aware of a few existing circumstances that could significantly affect its financial health in the future:

In the state of Wyoming a portion of all school district's general fund allotments are determined based on their student enrollment numbers. (Wyoming School Foundation Program) Campbell County School District No. 1 over the past ten years has seen a decline in enrollment, also called the Average Daily Membership (ADM), of 848 students. The District's 2004-2005 ADM total of 7,141 students was 14 students less than in 2003-2004. The declining enrollment is a concern. The size of incoming kindergarten classes has increased for two consecutive years, but have not reached the size of the upper grade level classes. The local economy continues to be strong, which is demonstrated by several factors. The counties assessed valuation has risen dramatically, due to record setting coal production and the production of coal bed methane. The county's overall population is increasing. The number of commercial and residential building permits shows explosive growth in the number of structures being built. There continues to be excellent potential for construction of new electrical power generation facilities. These indicators leave us cautiously optimistic that the decline in enrollment will be reversed.

With the increasing assessed valuation for Campbell County, and the increased amount the District pays into the Wyoming foundation program in recapture payments, the maximum recapture limitation was reached in fiscal year 2005, giving the District an additional \$5,886,543 in general fund revenue. The Wyoming foundation program which requires school districts to send tax revenues in excess of allocations has an elaborate formula that, barring any unforseen legislative changes, might mean more local tax money is allowed to be kept by the District. However, this calculation is not computed by the state of Wyoming Department of Education until the following July of each fiscal year, and such will not be considered revenue for any current fiscal year.

A major issue facing all Wyoming school districts is the state funding allocation formula. In 1986 the Wyoming Legislature implemented a new school finance system which brings money into the state from two areas for redistribution to Wyoming school districts based on a cost-based formula. The first area where the State of Wyoming receives funding, to finance this new school finance system is through a 12-mill county assessment and the second is from school districts which receive monies from their standard mill assessment over the established guaranteed

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Unaudited - Continued)

funding amount. Since 1987 Campbell County has paid into the State of Wyoming's School Foundation Program more than \$653,261,830; \$388,540,593 from the 12 mill county assessment and \$264,721,237 in recapture payments from Campbell County School District No.1.

Since the new school finance system's inception numerous lawsuits have been filed over equity and adequately funding small schools. On February 23, 2001, the Wyoming Supreme Court handed down its ruling in Campbell County v State of Wyoming, the fourth school finance decision since 1971. The Court found certain provisions of the Cost-based Block Grant model unconstitutional and ruled that the Legislature must remedy them on or before July 1, 2002. Although the methodology for computing teacher salaries was found to be constitutional with the exception that a revision to reflect cost changes since 1996-1997, the Cost-based Block Grant for the following was found to be unconstitutional: Administrative salaries, Classified wages, Vocational education, at-risk students, regional cost, small schools, small district and maintenance and operations. As of June 30, 2005 litigation is still pending.

Contacting the District's Financial Management

This financial report is designed to provide the district's citizens, taxpayer, customers, and investors and creditors with a general overview of the district's finances and to demonstrate the district's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Office, Campbell County School District No.1, 1000 West Eight Street, PO Box 3033, Gillette, WY 82717-3033 or visit the District's web site at www.ccsd.k12.wy.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2005

| Net Change in Fund Balances - Total Governmental Funds | \$ 10,805,105 |
|---|----------------------------|
| Amounts reported for governmental activities in the statement of activities are different because | |
| Timing differences for the recognition of property and production tax revenues between revenues reported in the funds and revenues reported in the statement of activities. | (1,335,867) |
| | (1,000,007) |
| Governmental funds report capital outlays as expenditures. | |
| However, in the statement of activities, the cost of those | |
| assets is allocated over their estimated useful lives as | |
| depreciation expense. This is the amount by which depreciation | |
| exceeded capital outlays in the current period. | (835,145) |
| Governmental funds recognize gain on sale of capital assets | |
| as the sales proceeds received. However, in the statement of | |
| activities, this amount is reduced by the remaining net book | |
| value of the assets that are disposed of. This is the amount | |
| of the net book value of assets disposed of. | (1,807,731) |
| Hail damage insurance proceeds provide current financial resources | |
| to governmental funds and are recorded as revenue when received, | |
| but these proceeds are recorded as a liability in the statement of net | |
| assets until such time as the related repair expenses are incurred. | 322,685 |
| Capital lease proceeds provide current financial resources to | |
| governmental funds, but issuing debt increases long-term | |
| liabilities in the statement of net assets. | (771,176) |
| An Internal Service Fund is used by Campbell County School District | |
| No. 1 to charge the cost of the District's self-insurance to individual | |
| funds. The net income (loss) of the internal service fund is reported | |
| with governmental activities. | 2,948,484 |
| Repayment of bond principal is an expenditure in the | |
| governmental funds, but the repayment reduces long-term | |
| liabilities in the statement of net assets. | 2,725,000 |
| naomites in the statement of net assets. | 2,723,000 |
| Repayment of capital lease principal is an expenditure in the | |
| governmental funds, but the repayment reduces long-term | |
| liabilities in the statement of net assets. | 984,593 |
| Decrease in long-term sick leave payable is not reflected | |
| in the governmental funds, but decreased long-term liabilities | |
| in the statement of net assets. | 13,942 |
| Change in Net Assets of Governmental Activities | \$ 13,049,890 |
| Change in Net Assets of Obvernmental Activities | \$ 13,0 1 2,020 |

CAMPBELL COUNTY SCHOOL DISTRICT NO. 1 NOTES TO THE BASIC FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

Campbell County School District No. 1 is a political subdivision of the State of Wyoming and provides a broad range of educational services to the youth of Campbell County, Wyoming. It is governed by an elected board of seven trustees. As required by accounting principles generally accepted in the United States of America these financial statements present the District and its component units, for which the District is considered to be financially accountable. Blended component units, although legally separate units, are, in substance part of the District's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government. The component units have a June 30 year end.

Blended Component Unit - The Campbell County Community Public Recreation District (CCCPRD) provides funding to the Campbell County community for recreation projects, which may include facilities, construction, programs and equipment. The Campbell County School District No. 1 Board of Trustees appoints all five members of the CCCPRD's Governing Board. CCCPRD is fiscally dependent on the District because the District's Board of Trustees must approve annually a 1 mill levy which provides the CCCPRD's funding. CCCPRD is reported as a special revenue fund.

Discretely Presented Component Unit - The Campbell County Board of Cooperative Higher Educational Services (BOCHES) provides a broad range of educational services for adults. The District's Board of Trustees appoints three of the five members of BOCHES' Governing Board. The Board is fiscally dependent on the District because the District's Board of Trustees must approve annually a .5 mill levy which provides the Board's funding.

Complete financial information for these component units may be obtained at Campbell County Board of Cooperative Higher Educational Service and Campbell County Community Public Recreation District administrative offices located at 1000 W. Eighth Street, Gillette, Wyoming.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property and production taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property and production taxes, interest and charges for services associated with current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The debt service fund accounts for financial resources to be used for payment of principal and interest on general

obligation long-term debt.

The capital construction fund accounts for the resources accumulated and payments made for the purchase of capital

items and for construction projects. This fund has been funded by a special mill levy in prior years and accounts for various projects selected by the District.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Additionally, the government reports the following fund types:

Proprietary Funds - Proprietary funds focus on the determination of the changes in net assets, financial position and cash flows. The District's proprietary fund is an enterprise fund. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District's enterprise fund is the Food Service Fund which accounts for the financial transactions related to the food service operations of the District. **Internal Service Fund** - The internal service fund accounts for operations that provide services to other funds of

Campbell County School District No. 1 on a cost-reimbursement basis. The District uses the internal service fund to account for the financing and operations of the District's self-insurance health plan.

Fiduciary Funds - The District's fiduciary funds are agency funds. Agency funds are custodial in nature (assets

equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The District also has the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

Note 1. Summary of Significant Accounting Policies (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges for food sales. Operating expenses for the food service enterprise fund include direct food costs, salaries and related benefits, depreciation on capital assets and other administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

- D. Assets, Liabilities, and Net Assets or Equity
- 1. Cash and Investments

The District's cash is considered to be cash on hand and demand deposit accounts.

The District is authorized by its governing board to invest in obligations of the U.S. Treasury, notes and bonds, agencies of all the U.S. Government that are backed by the full faith and credit of the United States Government, and Government National Mortgage Association mortgage-backed pass-through certificates which are authorized by State Statutes.

Investments (all of which have maturities of less than one year) for the District, as well as for its component units, are reported at fair value. The State Investment Pools operate in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Cash With Fiscal Agent

Cash with fiscal agent represents property and production taxes collected and held by the Campbell County Treasurer, for repayment of the District's General Obligation Bonds.

3. Inventory

On government-wide and fund financial statements, governmental inventories are presented at average cost which is not in excess of market. Inventory in the General Fund and the Technology Special Revenue Fund consists of expendable supplies held for consumption and are accounted for using the "consumption" method, whereby the costs are recorded as an expenditure at the time the individual inventory items are used.

On government-wide and fund financial statements, proprietary food service inventories are presented at cost. Inventory in the Food Service Fund consists of donated food and purchased food and are expensed when purchased and then adjusted to the end-of-year actual physical inventory count.

4. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due From Other Funds/Due To Other Funds". These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities. There were no amounts due between governmental and business-type activities at year end.

Note 1. Summary of Significant Accounting Policies (Continued)

5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary fund are reported both in the business-type activities column of the government-wide statement of net assets and in the respective fund.

All capital assets are capitalized at cost and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value at date of receipt. The District maintains a capitalization threshold of \$5,000, except for the Food Service fund which has a capital asset valuation threshold of \$600 or more to be capitalized and depreciated. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

| | Governmental Activities Estimated | Business- Type Activities Estimated |
|--|---|--|
| Description | Lives | Lives |
| Buildings and building improvements Improvements other than buildings Equipment and vehicles | 10 - 50 years 15 years 5 - 20 years | N/A N/A 10 -15 years |

6. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means, such as payment for unused accumulated vacation leave upon termination of services. The District records a liability for accumulated unused vacation time when earned for all eligible employees. The amount due for unused vacation leave is included in accrued compensation in the government-wide statements. The District anticipates that this amount will be liquidated using currently available resources. Therefore, the entire amount is included in accrued compensation in the governmental fund financial statements.

The District's sick leave reimbursement policy allows an employee who leaves the District to be reimbursed for unused accumulated sick leave. The amount that is actually due at year-end is recorded as a payable in the Sick Leave Special Revenue Fund. Due means the employee has applied for the leave but has not received payment at year end. Amounts not due at year end are recorded as long-term debt in the government-wide statement of net assets.

7. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. General obligation bonds, long-term capital leases and the portion of sick leave payable that has accrued but not yet been applied for that will be paid from governmental funds are recognized as a liability in the government-wide financial statements.

8. Fund Balance

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Designations of fund balance represent tentative management plans that are subject to change. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, debt service and capital projects.

9. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

10. Property and Production Tax Revenues

Property and production tax revenues represent property and production taxes for 2004 and prior years which are collectible during the year ended June 30, 2005. Property and production taxes which are not collected within 60 days after June 30 are recorded as deferred revenue. Property and production taxes are levied by the first Monday of August and are payable in two installments, which are due September 1 and March 1. These installments become delinquent, and thus payable, on November 10 and May 10. The taxpayer may elect, without penalty, to pay the entire balance on December 31. Property and production taxes are collected by the County Treasurer and remitted to the District in the month following that of collection.

11. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Stewardship, Compliance and Accountability

A. Budgetary Data

Budgets for the Special Revenue, Debt Service and Capital Projects Funds are prepared on the same basis and using the same accounting practices as are used to prepare the financial reports. The budget for the General Fund is prepared on the same basis used to prepare the financial report with the exception that payments to the State Foundation Program are budgeted on the cash basis of accounting.

On or before the last Thursday of March each year, all agencies and departments of the District submit requests for appropriations to the finance department so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Note 2. Stewardship, Compliance and Accountability (Continued)

Before May 15, the proposed budget is presented to the District's Board of Trustees for review. The District's Board of Trustees hold public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the finance department, or, the revenue estimates must be changed by an affirmative vote of the majority of the District's Board of Trustees.

Unexpended budgeted amounts lapse at the end of the budget year. Budgetary control is established at the department level (instruction: regular, special, vocational, adult/continuing; support services: pupil, instructional staff, general administration, school administration, business, operation and maintenance of plant, pupil transportation, central, other support; operation of non-instructional service: community services) for the General Fund and at the fund level for the Special Revenue Funds, Debt Service Fund and Capital Projects Funds. Management control is exercised at the budgetary line item level. The District may amend its budget after it is approved using the same procedures necessary to approve the original budget. Over the course of the year, the District revised the annual budget one time. These budget amendments fall into two categories: budget transfers between function classifications to properly record expenditures and increases in appropriations to recognize actual funding received from state and federal sources and to prevent budget over runs. The amounts reported as the original budgeted amounts in the budgetary statements reflect appropriation in the first complete appropriated budget. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

B. Budget/GAAP Reconciliation

Budgetary comparisons in the financial statements are presented on a budgetary basis. Adjustments necessary to reconcile the General Fund revenues at the end of the year on the budgetary basis to actual are as follows:

| | Revenues |
|--|---------------|
| Budgetary basis | \$ 69,913,263 |
| Adjustment for State Foundation Program payable at June 30, 2004 | 2,087,000 |
| Adjustment for State Foundation Program payable at June 30, 2005 | (1,947,500) |
| Generally accepted accounting principles basis | \$ 70,052,763 |

C. Excess of Expenditures Over Appropriations

For the year ended June 30, 2005 expenditures exceeded appropriations in the General Fund's Central Support Services and Transfers (Out) by \$112,202 and \$1,225,928, respectively. The overexpenditure occurred in Transfers (Out) as a result of transferring proceeds from the sale of capital assets to the Capital Construction Fund.

Note 3. Detailed Notes on All Funds

A. Deposits and Investments

<u>Deposits</u> - Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy requires all acceptable securities pledged as collateral must have a fair market value equal to or exceeding 105 percent of total deposits, including any accrued interest, less the amount of Federal Deposit Corporation Insurance (FDIC), unless an exception is specifically granted by the Board of Trustees or an authorized representative of the Board.

Note 3. Detailed Notes on All Funds (Continued)

Deposits of the District were covered in their entirety by federal depository insurance and collateral held by the District's agent under a joint custody receipt in the District's name at June 30, 2005.

⁽¹⁾ Ratings are provided where applicable to indicate associated credit risk. N/A indicates not applicable.

Investment Policies

Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. Investing is performed in accordance with investing policies adopted by the governing board complying with State Statutes. District funds may be invested in obligations of the U.S. Treasury, notes and bonds, agencies of the U.S. Government that are backed by the full faith and credit of the United States Government and Government National Mortgage Association mortgage-backed pass-through certificates. The District's investments are currently not rated by a nationally recognized statistical rating organization (NRSRO).

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District does not address interest rate risk in its investing policy except to invest in investments which secure a maximum yield of interest revenues to supplement other revenues and support the educational programs of the District. Currently there are no restrictions on when the District can withdraw or contribute money to its current investments. The Wyoming Government Investment Fund invests in a wide variety of investments which are all allowed under State Statutes. The weighted average maturity of this fund is 39 days. The Wyoming State Investment Pool only invests in U.S. Treasuries with a maturity of one day which are bought and resold on the same day.

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in open-end mutual funds and external investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form, and therefore, the District is not exposed to custodial credit risk.

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from the concentration of credit risk requirements. The District does not address concentration of credit risk in its investment policy.

Note 3. Detailed Notes on All Funds (Continued)

B. Taxes Receivable

Receivables as of year end for the District's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

| | General | Debt Service | Capital nstruction | Non-Major | | |
|--|--------------------------------|---------------------------|------------------------|--------------------------|-----------------------------|---|
| | Fund | Fund | Fund | Funds | Total | |
| Taxes Receivable Less: Allowance for uncollectibles | \$ 4,624,531 (2,316,660) | \$ 144,082 (87,515) | \$ 3,540 (3,336) | \$ 59,851 (15,790) | \$ 4,832,004 (2,423,301) |) |
| Taxes Receivable, Net | \$ 2,307,871 | \$ 56,567 | \$ 204 | \$ 44,061 | \$ 2,408,703 | |

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

| | Unavailable |
|---|--------------|
| Property taxes receivable (General Fund) | \$ 1,600,683 |
| Deferred grant revenue (General Fund) | 108,696 |
| Property taxes receivable (Debt Service Fund) | 56,567 |
| Property taxes receivable (Capital Construction Fund) | 204 |
| Property taxes receivable (Non-Major Funds) | 21,248 |
| Total Deferred Revenue for Governmental Funds | \$ 1,787,398 |

C. Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows:

| | Balance June 30, 2004 | Additions | Deductions | Balance June 30, 2005 |
|--------------------------------------|-----------------------------|-------------------|-------------------|------------------------------------|
| Governmental Activities | | | | |
| Non-depreciable capital assets: | | | | |
| Land | \$ 5,095,923 | \$ - | \$ (1,802,662) | \$ 3,293,261 |
| Construction in progress | 897,044 | 1,462,954 | (2,211,254) | 148,744 |
| Total non-depreciable capital assets | \$ 5,992,967 | \$ 1,462,954 | \$ (4,013,916) | \$ 3,442,005 |
| Depreciable capital assets: | | | | |
| Buildings and building improvements | \$ 117,825,400 | \$ 2,641,468 | \$ (36,966) | \$ 120,429,902 |
| Improvements other than buildings | 12,843,269 | 417,885 | (5,117) | 13,256,037 |
| Equipment and vehicles | 13,356,369 | 919,030 | (715,535) | 13,559,864 |
| Total depreciable capital assets | \$ 144,025,038 | \$ 3,978,383 | \$ (757,618) | \$ 147,245,803 |
| Less accumulated depreciation for: | | | | |
| Buildings and building improvements | \$ (45,490,864) | \$ (2,827,421) | \$ 36,966 | \$ (48,281,319) |
| Improvements other than buildings | (11,321,142) | (222,074) | 5,117 | (11,538,099) |
| Equipment and vehicles | (8,511,934) | (1,015,733) | 710,466 | (8,817,201) |
| Total accumulated depreciation | \$ (65,323,940) | \$ (4,065,228) | \$ 752,549 | \$ (68,636,619) |

| | Balance June 30, 2004 | Additions | Deductions | Balance June 30, 2005 |
|---|-----------------------------|-------------------|-------------------|------------------------------------|
| Total depreciable capital assets, net | \$ 78,701,098 | \$ (86,845) | \$ (5,069) | \$ 78,609,184 |
| Governmental activities capital assets, net \$ | \$ 84,694,065 | \$ 1,376,109 | \$ (4,018,985) | \$ 82,051,189 |
| Business-type Activities Depreciable capital assets: Equipment and vehicles \$ Less accumulated depreciation | \$ 551,262 (477,147) | 1,412 (12,508) | \$ - | \$ 552,674 (489,655) |
| Total depreciable capital assets, net | \$ 74,115 | \$ (11,096) | \$ - | \$ 63,019 |

Note 3. Detailed Notes on All Funds (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

| Governmental Activities | |
|--|-----------------|
| Regular instruction | \$ 3,975,081 |
| General administration | 90,147 |
| Total depreciation expense - governmental activities | \$ 4,065,228 |
| Business-type Activities | |
| Food service | \$ 12,508 |

1

1

The construction in progress represents construction related to improvements at several schools and the construction of the new Recluse school. Actual signed contracts for these projects approximate \$223,000 and will be funded by the Major Maintenance Special Revenue Fund and the Major Capital Projects Fund. Contracts signed but not yet started approximated \$1,243,000 at June 30, 2005.

D. Interfund Receivables, Payables and Transfers

The composition of due to/from other funds as of June 30, 2005 are as follows:

| | Receivable | Payable | |
|---------------------------|---------------|-----------|--|
| Major Funds: | | | |
| General Fund | \$ 514,978 \$ | 3,534,449 | |
| Capital Construction Fund | 1,063 | - | |
| Total Major Funds | \$ 516,041 \$ | 3,534,449 | |

Note 3. Detailed Notes on All Funds (Continued)

| | Receivable | Payable |
|------------------------------------|----------------|-------------|
| Non-Major Funds: | | |
| Special Revenue Funds: | | |
| "K" Fund | \$ 473,228 \$ | |
| Technology Fund | - | 59 |
| Sick Leave | 672 | - |
| CCCPRD | 122,238 | - |
| Carl Perkins | - | 14,259 |
| Title I | - | 82,625 |
| Title I - Neglected and Delinquent | - | 30,441 |
| Title I - Even Start | - | 14,110 |
| Title V | - | 6,043 |
| Drug Free Schools | - | 5,887 |
| Title II | - | 45,899 |
| Part B | - | 159,209 |
| Title III | - | 2,080 |
| 21 st Century SIG | - | 30,764 |
| Capital Project Funds: | | |
| Depreciation Reserve | 587 | - |
| Major Capital Projects | | 123,602 |
| Total Non-Major Funds | \$ 596,725 \$ | 514,978 |
| Internal Service Fund | \$2,936,661 \$ | . – |
| | \$4,049,427 \$ | 6 4,049,427 |

Interfund Transfers:

| | | | | Interna | 1 | |
|-----------------|---------------|----------------|-----------|----------|----------------|--------------|
| | General | Capital | Food | Service | Nonmajor | |
| | Fund | Construction | Service | Fund | Governmental | Total |
| Transfers In | \$ 150,000 | \$ 1,135,403 | \$ 93,625 | \$ 90,52 | 5 \$ 1,517,576 | \$ 2,987,129 |
| Transfers (Out) | (1,629,553) |) - | - | - | . (1,357,576) | (2,987,129) |
| Net interfund | | | | | | |
| transfers | \$(1,479,553) |) \$ 1,135,403 | \$ 93,625 | \$ 90,52 | 5 \$ 160,000 | \$- |

The primary purpose of the material interfund transfers are: 1) the General Fund made a transfer to the Capital Construction Fund transferring proceeds received from the sale of capital assets, 2) the General Fund provided operating income to the Technology Fund to help supplement the purchase of computers, software and supplies for the continued integration of technology in various District schools, 3) transfers were made from the Depreciation Reserve Fund for capital lease payments, and 4) the Campbell County Community Public Recreation District (CCCPRD) provided operating income to the "K" Fund to promote public recreation activities throughout the District.

E. Compensated Absences

The District allows its employees one day of sick leave for each month of employment, with the employees being allowed to accumulate sick leave indefinitely. The District allows its employees two days of convenience leave for each year of employment, changing to three days after ten years of employment, with the employees being allowed to accumulate a maximum of three days. The accumulated unpaid convenience leave over the maximum three days allowed will be converted to sick leave at the end of the fiscal year. The accumulated unpaid sick and convenience leave approximated \$13,041,000 at June 30, 2005.

Note 3. Detailed Notes on All Funds (Continued)

The District's sick leave reimbursement policy allows an employee who leaves the District be reimbursed for unused sick leave according to the following formula:

| I. For days accumulated on or befo | re June 30, 1994: |
|------------------------------------|---|
| Accumulated sick leave | Reimbursement |
| 0-60 days | -0- |
| 61-120 days | 25% x number of days over 60 x daily rate of pay |
| 121 days and over | 50% x number of days over 120 x daily rate of pay |

These days will be reimbursed at the daily rate of pay effective June 30, 1994. Any decrease in accumulated sick leave balance for days accumulated on or before June 30, 1994 to 60 or fewer days will result in no longer qualifying for reimbursement under Section I.

| II. For days accumulated on or after July 1, 1994: | 61-120 Days | 120+ Days |
|--|-------------|--|
| Educational Support Personnel Certified Administrators/Supervisors | 1 2 | \$20 per day \$25 per day \$30 per day |

GASB Statement No. 6 limits the amount of compensated absence liability to be reported in the governmental funds to the amount that is actually due at year-end. Due means the employee has applied for the leave but has not yet received payment at year end. The current liability for this reimbursement at June 30, 2005 is \$39,135 and has been recorded as a payable in the Sick Leave Special Revenue Fund and as a noncurrent liability due within one year in the government-wide statement of net assets. Amounts not due at year end approximating \$718,000, are recorded as a non-current liability due within more than one year in the government-wide statement of net assets.

The District's employees have vested accrued vacation amounting to approximately \$273,000 at June 30, 2005, which has been recorded as a liability. It is anticipated that this amount will be liquidated using currently available resources; therefore, the recorded amount has been charged to expenditures for the year ended June 30, 2005.

F. Capital Leases

The District has entered into lease agreements for financing the acquisition of transportation equipment. These lease agreements provide for the transfer of title to the District at the end of the leases, and therefore qualify as capital leases for accounting purposes. The leases have been recorded at the present value of the future minimum lease payments as of the inception dates. The leases are cancelable should monies not be appropriated in future years.

The assets acquired through capital leases are as follows:

| | Governmental Activities |
|--|----------------------------|
| Equipment and vehicles Less: Accumulated depreciation | \$ 3,661,908 (993,718) |
| Total | \$ 2,668,190 |

Note 3. Detailed Notes on All Funds (Continued)

| as of June 30, 2005 are presented below: | |
|---|--|
| Year Ending | Obligations Under Capital |
| June 30, | Lease |
| 2006 2007 2008 2009 | \$ 806,273 588,149 381,161 169,505 |
| Total lease payments Less interest portion | \$ 1,945,088 (122,378) |
| Present value of net minimum lease payments | \$ 1,822,710 |

Payments on these obligations are being made by the General Fund. Annual debt service requirements as of June 30, 2005 are presented below:

G. Long-Term Debt

The District has previously issued general obligation bonds to provide funds for the construction of a second campus for the high school. The original amount of these bonds was \$22,000,000. These bonds are direct obligations and pledge the full faith and credit of the District. The bonds have an average interest rate of 5.5% and are payable over the next two years.

Payments on this obligation are being made by the Debt Service Fund. Annual debt service requirements to maturity for general obligation bonds are as follows:

| Year Ending | Governmental | Activities |
|----------------|--------------|------------|
| June 30, | Principal | Interest |
| 2006 | \$2,860,000 | \$ 350,548 |
| 2007 | 3,395,000 | 191,817 |
| Total payments | \$6,255,000 | \$ 542,365 |

The District entered into a Public Facilities Agreement with the Wyoming Department of Environmental Quality, Abandoned Mine Land Division (AML) to help fund the construction of the branch campus discussed above. The total amount to be paid to the District by AML shall not exceed \$12,000,000. The amounts to be paid to the District by AML is contingent on the AML being funded in future years. The District anticipates that it will use the amounts received from AML to help fund the debt service of the general obligation bonds which were issued to construct the branch campus. The funding schedule is as follows:

| Year Ending | AML |
|----------------|--------------|
| June 30, | Payments |
| 2006 | \$ 1,500,000 |
| 2007 | 1,870,000 |
| Total payments | \$ 3,370,000 |

Note 3. Detailed Notes on All Funds (Continued)

| | Balance June 30, 2004 | A | dditions | Reductions | Balance June 30, 2005 | Due Within One Year |
|--------------------------|-----------------------------|----|----------|------------------|------------------------------------|---------------------------|
| Governmental Activities: | | | | | | |
| Bonds Payable: | | | | | | |
| General obligation bonds | \$ 8,980,000 | \$ | - | \$(2,725,000) \$ | 6,255,000 | \$ 2,860,000 |
| Capital leases | 2,036,127 | | 771,176 | (984,593) | 1,822,710 | 742,488 |
| Sick Leave Payable | 780,894 | | - | (24,017) | 756,877 | 39,135 |
| Long-term liabilities | \$11,797,021 | \$ | 771,176 | \$(3,733,610) \$ | 8,834,587 | \$ 3,641,623 |
| Legal Debt Margin | | | | | | |

Long-term liability activity for the year ended June 30, 2005 was as follows:

H. Legal Debt Margin

At June 30, 2005, the general obligation bond debt issued by the District did not exceed its legal debt margin as shown by the computation that follows:

| Assessed valuation | \$,258,728,319 |
|--|----------------|
| Debt limit - 10% of total assessed valuation | \$325,872,832 |
| General obligation bonded debt outstanding | \$ 6,255,000 |
| Unused legal debt capacity | \$319,617,832 |

I. State Foundation Program Payable

Wyoming State Statutes provide for a determination of amounts to be included in the Foundation Program for each School District. If a District has resources which exceed the Foundation's funding formula, then the District must pay the excess amounts to the State Foundation Program for redistribution to other Districts.

Because of this funding formula, Campbell County School District No. 1 must pay \$1,947,500 of amounts received during the year ended June 30, 2005 to the Foundation Program during the ensuing year.

Early Retirement Agency Fund

During the current year and in prior years the District has provided various plans to provide severance to employees who retired early for their years of service to the District. The amount of the severance was based upon current compensation, length of service, and age of employee. Sixty-seven individuals are receiving severance payments under these plans as of June 30, 2005.

The early retirement severance amount is recorded as an expenditure when the related fund liability is incurred. Annual amounts required to retire the early retirement payable at June 30, 2005 are presented below at their present value assuming 3.94% interest:

| Years Ending June 30, | |
|----------------------------------|--------------|
| 2006 | \$ 488,711 |
| 2007 | 386,115 |
| 2008 | 357,927 |
| 2009 | 277,381 |
| 2010 | 166,175 |
| 2011-2013 | 90,733 |
| Total payments | \$ 1,767,042 |
| Less interest portion | 115,695 |
| Present value of future payments | \$ 1,651,347 |

Note 4. Other Information

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchased commercial insurance for claims and risks of loss. The coverages for significant items and the related deductible are as follows:

| | Amount of | | |
|---|----------------|----------------------|----------|
| Type of Claim | Coverage | De | ductible |
| Commercial General Liability | | | |
| Occurrence | \$ 2,000,000 | \$ | - |
| Personal and advertising injury | \$ 2,000,000 | \$ | - |
| Products-completed operations aggregate | \$ 2,000,000 | \$ | - |
| Miscellaneous medical professional liability | \$ 2,000,000 | \$ \$ \$ | - |
| School board legal liability | \$ 2,000,000 | \$ | 2,500 |
| Auto Liability | | | , |
| Each accident | \$ 2,000,000 | \$ | 500 |
| Uninsured motorist | \$ 2,000,000 | \$ | - |
| Under-insured motorist | \$ 2,000,000 | \$ | - |
| Property | | | |
| Building and contents | \$ 211,434,800 | \$ | 5,000 |
| Business income without extra expense | \$ 1,000,000 | | - |
| Extra expense (per occurrence) | \$ 250,000 | \$ \$ \$ | - |
| Earthquake | \$ 15,000,000 | \$ | 100,000 |
| Flood/backup water | \$ 15,000,000 | \$ | 100,000 |
| Supplemental Coverages | | | ŕ |
| Electronic data processing equipment, data and media | \$ 5,000,000 | \$ | - |
| Valuable papers | \$ 1,000,000 | \$ | - |
| Builders' risk | \$ 1,000,000 | \$ \$ \$ \$ | - |
| Contractors' equipment (per item) | \$ 797,994 | \$ | - |
| Vehicle damage | \$ 5,000,000 | \$ | - |
| Boiler and Machinery | | | |
| Total breakdown limit | \$ 50,000,000 | \$ | 1,000 |
| Ordinance or law, demolition | \$ 1,000,000 | \$ \$ | - |
| Hazardous substance | \$ 2,000,000 | \$ | - |
| WHSAA Athletics Catastrophic Accidental Death/Dismemberment | | | |
| Accident medical expense | \$ 2,000,000 | \$ | - |

Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The District has elected to provide employee medical, dental, and life insurance benefits through a self-insured program. The District uses its general fund to account for and finance its uninsured risks of loss in this program. This plan provides a medical plan with a \$500 deductible for single, \$1,000 for employee plus spouse, and \$1,500 per family and employee plus minor children. The dental plan has no deductible for preventative and diagnostic services, \$45 deductible for single and \$90 per family for basic and major services. Basic is covered at 85%, and major at 50%. For term life insurance the District covers one times an employee's annual salary, minimum at \$10,000 and maximum at \$50,000. For accidental death and dismemberment insurance the District covers an employee for \$50,000. A third party administrator reviews all claims which the District then pays. The District purchases stop-loss coverage for medical for \$125,000 per covered individual.

Note 5. Other Information (Continued)

The liability for unpaid claims cost of \$989,500 as estimated by the third party administrator based upon claims filed subsequent to year end and historical experience, which is reported in the financial statements at June 30, 2005, is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims, including incurred but not reported claims, be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the fund's claims liability amount are:

| | Balance | | | Balance |
|--------------------------------|------------|--------------|--------------|------------|
| | at | Current | | at |
| | Beginning | Year | Claim | End of |
| | of Year | Claims | Payments | Year |
| June 30, 2004 to June 30, 2005 | \$ 713,000 | \$ 6,354,514 | \$ 6,078,014 | \$ 989,500 |
| June 30, 2003 to June 30, 2004 | \$ 913,440 | \$ 5,834,452 | \$ 6,034,892 | \$ 713,000 |

The District contributes to the Wyoming Worker's Compensation Insurance program. Employees covered by this program are those working in jobs defined by the State as extra-hazardous occupations. Employees covered by Wyoming Workers' Compensation Insurance include: bus drivers, mechanics, safety patrol, chemistry laboratory instructors, home economics instructors, printing department personnel, warehouse personnel, electronics technicians and special programs teacher assistants. This list may be changed as required by State Statutes. All Work Investment Act student employees are covered by Wyoming Workers' Safety and Compensation regardless of job assignment. All other employees of the District are not covered by any form of on-the-job injury insurance.

B. Retirement Commitments

The District's full-time employees participate in the Wyoming Retirement System ("System"), a cost-sharing multipleemployer public employee retirement system. The Plan provides retirement benefits at age 60 with early retirement options available. The Plan also provides disability and death benefits. Benefits are established by State Statute. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Wyoming Retirement System, Herschler Building, Cheyenne, Wyoming 82002 or by calling (307) 777-7691.

The System statutorily requires 11.25% of the covered employee's salary to be contributed to the plan. The District has elected to fund both the employer's and employee's share of the required contribution into the plan for its employees. The District's contributions to the System for the years ended June 30, 2005, 2004 and 2003 were \$4,837,000, \$4,630,000 and \$4,525,000 respectively, which was equal to the required contribution for the years then ended.

C. Tax Revenues

Approximately 86% of tax revenue for the year ended June 30, 2005 represents production tax based on the value of minerals extracted which may vary from year to year.

D. Contingencies

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2005.

COMBINING STATEMENTS - NONMAJOR GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes.

"K" Fund - This fund is designated to account for programs such as child care services, summer camps, engraving services, technology rentals, etc. This fund also receives transfers from the Campbell County Community Public Recreation District (CCCPRD) to promote public recreation activities throughout the District.

Major Maintenance - This fund was established by the District in accordance with Wyoming Statutes. This fund accounts for the revenues and expenditures for capital maintenance allocations determined by the Wyoming Department of Education. This fund is being funded by the State.

Building (B) - This fund accounts for the monies received by various schools for building rental, fines and fees, lost books, and pop machines. Each school has control of these monies to spend on items needed such as lost books or other items.

Technology - This fund is designated to keep computer equipment and computer instruction materials current.

Sick Leave - This fund is used to account for the monies set aside to fund the District's sick leave obligations.

Campbell County Community Public Recreation District (CCCPRD) - This fund provides funding to the Campbell County community for recreation projects, which may include facilities, construction, programs and equipment.

Carl Perkins - This fund accounts for federal revenues used to develop the technical, vocational, and academic skills of secondary and post-secondary students.

Title I - This fund accounts for federal revenues used to assist the District in meeting the special needs of educationally deprived children who reside in areas with high concentrations of children from low-income families.

Title I Neglected and Delinquent - This fund accounts for federal revenues used to provide drop-out prevention, coordination of health and social services, and programs to meet the unique educational needs of youth at educational risk, including pregnant and parenting teens, youth who have come in contact with the juvenile justice system, youth at least one year behind their expected grade level, migrant youth, students with limited English proficiency, and gang members.

Title I Even Start - This fund accounts for federal revenues used to provide intensive family literacy services to help break the cycle of poverty and illiteracy by improving the educational opportunities of low-income families by integrating early childhood education, adult literacy or basic education, and parenting education into a unified family literacy program.

Title V - This fund accounts for federal revenues used to support implementation of programs such as computer education, gifted and talented programs, in-service and staff development.

Drug Free Schools - This fund accounts for federal revenues used to support the implementation of drug abuse education and prevention programs.

COMBINING STATEMENTS - NONMAJOR GOVERNMENTAL FUNDS (Continued)

Work Investment Act - This fund accounts for federal revenues used to help Americans access the tools they need to manage their careers through information and high quality services to help U.S. companies find skilled workers.

Title II - This fund accounts for federal revenues used to support sustained and intensive high-quality professional development for educators in the core academic subjects.

Part B - This fund accounts for federal revenues used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title III - This fund accounts for federal revenues used to ensure that Limited English Proficient (LEP) students, including immigrant children, develop English proficiency and meet the same academic content and achievement standards as other students are expected to meet.

McKinney Homeless - This fund accounts for federal revenues used to provide the homeless children and youth with an appropriate education and the supplies and other physical needs required to attain the education and to raise the awareness of professional educators to better identify the homeless children and youth and to understand their special needs.

21st Century SIG - This fund accounts for federal revenues used to develop and implement comprehensive local alcohol, tobacco and other drug prevention plans that will result in the reduction of risk factors, enhancement of protective factors and the reduction of alcohol, tobacco and other drug use.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. Following is a description of the nonmajor capital projects fund:

Depreciation Reserve Fund - This fund was established in accordance with Wyoming Statutes. The statutes allow the District to establish reserves for the purpose of purchasing or replacing specified equipment or a depreciation reserve for equipment and school building repair. This fund is being funded by transfers from the General Fund.

Major Capital Projects Fund - This fund was established in accordance with Wyoming Statutes. It was created for the purpose of building new schools and major capital renovations and projects as determined by the Wyoming School Facilities Commission. This fund is being funded by the State of Wyoming.

(1) N/A - Not Available. With the GASB 34 reporting changes the State of Wyoming's Department of Education reclassified function groupings and expanded certain categories. Restating past years financials into the States' new GASB 34 groupings was found to be overwhelming and extremely difficult. Because of this, the decision was made to opt out of restating previous non-GASB 34 years.

(1) N/A - Not Available. With the GASB 34 reporting changes the State of Wyoming's Department of Education reclassified function groupings and expanded certain categories. Restating past years financials into the States' new GASB 34 groupings was found to be overwhelming and extremely difficult. Because of this, the decision was made to opt out of restating previous non-GASB 34 years.

| | | | | | | | |

(1) Includes General, Special Revenue, Debt Service and Capital Projects Funds

(2) The fluctuations of revenue from one fiscal year to another is in direct correlation to the changes in the assessed valuation as seen in table 6. Campbell County School District is heavily dependent on the mineral extraction industries and an increase or reduction in the assessed value of these industries have a direct effect on revenues.
 (3) The District's Self-funded Insurance Fund prior to fiscal year 2002 and from 2005 forward is an Internal Service Fund type and is not included in the General Governmental Funds totals above.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENTAL AUDITING STANDARDS

Governing Board Campbell County School District No. 1 Gillette, Wyoming

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of **Campbell County School District No. 1**, as of and for the year ended June 30, 2005, which collectively comprise the **District's** basic financial statements and have issued our report thereon dated August 4, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered **Campbell County School District No. 1's** internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting the internal control over financial report of the internal control over financial reporting the internal control over financial reporting the internal control over financial report of the internal control over financial reporting that, in our judgment, could adversely affect the **District's** ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. A reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as Finding IC 05-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily

disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is not a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether **Campbell County School District No. 1's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of **Campbell County School District No. 1** in a separate letter dated August 4, 2005.

This report is intended solely for the information and use of the Governing Board, management, the Wyoming Department of Audit and the oversight audit entity and is not intended to be and should not be used by anyone other than those specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Governing Board Campbell County School District No. 1 Gillette, Wyoming

Compliance

We have audited the compliance of **Campbell County School District No. 1** with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2005. The **District's** major federal programs are identified in the Summary of Auditor's Results Section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the **District's** management. Our responsibility is to express an opinion on the **District's** compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining on a test basis, evidence about the **District's** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the **District's** compliance with those requirements.

In our opinion, the **District** complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

Internal Control Over Compliance

The management of the **District** is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the **District's** internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted a matter involving the internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the **District's** ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts and grants. A reportable condition is described in the accompanying Schedule of Findings and Questioned Costs as Finding FA 05-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is not a material weakness.

This report is intended solely for the information and use of the Governing Board, management, the Wyoming Department of Audit and the oversight audit entity and is not intended to be and should not be used by anyone other than those specified parties.

Basis of Presentation: The accompanying schedule of expenditures of federal awards includes the federal grant activity of Campbell County School District No. 1 and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133 "Audits of State, Local Governments, and Non-Profit Organizations". Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For The Year Ended June 30, 2005 (Page 2 of 2)

Section II. Findings Relating to the Financial Statement Audit as Required to be Reported in Accordance With Government Auditing Standards Generally Accepted in the United States of America

A. Reportable Conditions in Internal Control

IC 05-1 - Segregation of Duties in Data Processing Department

Computer programmers perform both operating and programming functions in data processing. This does not provide an adequate segregation of duties within the data processing department.

The **District's** data processing staff is not large enough to permit adequate segregation of duties as reported above. Due to the size of the District's staff it is anticipated that this will be an ongoing finding. However, there are possible compensating controls such as close supervision and monitoring by management and by the governing board.

Auditee's Response:

Although the Data Processing staff is too small to provide for adequate segregation of duties, there are effective compensating controls in place. Physical control of documents and control of check signature authority are two examples of measures used to compensate for the segregation issue. Purchase orders all require management approval, as well as invoices processed for payment. The Board of Trustees approves all warrants. On a monthly basis, expenditures are reviewed by the Board, Administrators, and Department Heads and bank statements are reconciled and reviewed. These controls provide adequate and effective safeguards to compensate for the lack of segregation of responsibilities in the data processing department.

B. Compliance Findings

There were no compliance findings.

Section III. Findings and Questioned Costs for Federal Awards

FA 05-1 - Segregation of Duties in the Data Processing Department

For all major programs computer programmers perform both operating and programming functions in data processing. This does not provide an adequate segregation of duties within the data processing department.

The **District's** data processing staff is not large enough to permit adequate segregation of duties as

reported above. Due to the size of the District's staff it is anticipated that this will be an ongoing finding. However, there are possible compensating controls such as close supervision and monitoring by management and by the governing board.

Because of the size of the District's data processing staff it is anticipated that this weakness will be

an ongoing finding. Auditee's Response:

Although the Data Processing staff is too small to provide for adequate segregation of duties, there are

effective compensating controls in place. Physical control of documents and control of check signature authority are two examples of measures used to compensate for the segregation issue. Purchase orders all require management approval, as well as invoices processed for payment. The Board of Trustees approves all warrants. On a monthly basis, expenditures are reviewed by the Board, Administrators, and Department Heads and bank statements are reconciled and reviewed. These controls provide adequate and effective safeguards to compensate for the lack of segregation of responsibilities in the data processing department.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, **2005**

1) Prior Year Finding:

Segregation of Duties in the Data Processing Department

For all major programs computer programmers perform both operating and programming functions in data processing. This does not provide an adequate segregation of duties within the data processing department.

Auditee's Response.

Although the Data Processing staff is too small to provide for adequate segregation of duties, there are effective compensating controls in place. Physical control of documents and control of check signature authority are two examples of measures used to compensate for the segregation issue. Purchase orders all require management approval, as well as invoices processed for payment. The Board of Trustees approves all warrants. On a monthly basis, expenditures are reviewed by the Board, Administrators, and Department Heads and bank statements are reconciled and reviewed. These controls provide adequate and effective safeguards to compensate for the lack of segregation of responsibilities in the data processing department.
