"Teaching Effectively - Learning Successfully"

November 13, 2012

Citizens of Campbell County and members of the Board of Education Campbell County School District No. 1

It is our pleasure to furnish you with the 2012 Comprehensive Annual Financial Report (CAFR) of Campbell County School District No. 1, for the fiscal year ended June 30, 2012. Pursuant to Wyoming State Statue 16-4-121 and 16-4-122 an annual audit was preformed by independent auditors in accordance with generally accepted auditing standards and using "Government Auditing Standards" audit procedures, with copies of this CAFR being submitted to the Wyoming State Department of Education before December 15, 2012 as required by Wyoming State Statue 9-1-507. The basic financial statements in this report provide a comprehensive overview of the financial position and the results of operations of Campbell County School District No. 1 as a whole, while the detailed financial statements describe specific activities of each fund and account group used in the accounting for the District's financial transactions. With the technical assistance of Shuck, Bennett & Weber LLP, Certified Public Accountants, this report was prepared by the District's Instructional Support Division, Accounting Department, in accordance with accounting principles generally accepted in the United States of America and reporting standards of the Governmental Accounting Standards Board. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with management.

We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of Campbell County School District No.1 as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activity have been included.

#### ORGANIZATION OF THE REPORT

For the convenience of users we have divided this comprehensive annual financial report into four major sections, described as follows:

- The **introductory section** includes this transmittal letter, the list of principal officials, the organizational structure of Campbell County School District No. 1 and a copy of the Certificate of Excellence from fiscal year 2011.
- The **financial section** includes the government-wide financial statements; the fund financial statements; the combining statements and individual fund schedules; the independent auditor's report of the financial statements and schedules as well as the Management's Discussion and Analysis letter.
- The **statistical section** is unaudited data which includes selected financial and demographic information, generally presented on a multi-year basis.
- The **single audit section** contains information relating to the District's single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," and the independent auditor's reports on compliance and internal control.

The report provides valuable management information. Copies will be made available to the Chamber of Commerce, major taxpayers, public libraries in our area, financial rating agencies as well as other interested parties.

#### THE REPORTING ENTITY

The financial reporting entity includes all the funds of Campbell County School District No. 1 as well as that of its Discretely Presented Component Unit, the Campbell County Board of Cooperative Higher Education Services (BOCHES) and the Blended Component Unit, Campbell County Community Public Recreation District (CCCPRD). The Campbell County Board of Cooperative Higher Education Services (BOCHES) and the Campbell County Community Public Recreation District (CCCPRD) are fiscally dependent upon the District. Component units are legally separate entities for which the primary government is financially accountable. The blended component unit is reported as a Special Revenue Fund in the District's financial records. Financial activity of the Campbell County Board of Cooperative Higher Education Services (BOCHES) is reported in a separate column in the basic financial statements to emphasize that it is legally separate from Campbell County School District No. 1 and to differentiate its financial position, results of operations, and cash flows from those of the District.

#### GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

Campbell County School District No. 1 encompasses 4,755 square miles and includes the towns of Gillette, Recluse, Rozet, and Wright. Approximately 8,368 students are taught in one senior high school split into two campuses, one alternative high school, one junior/senior high school, two junior high schools and fifteen elementary schools (five of which are rural).

Among the District's assets, are thirty-one essential buildings with an average age of 32 years. In addition to twenty-one school buildings, the District has ten main buildings: the Aquatic Center; support facility buildings which house offices and departments of Transportation, Buildings and Grounds-Maintenance, Central Warehouse, Lakeway Learning Center and the Educational Services Center; as well as a building housing community support service programs such as Even Start, Kinder Tots and the Virtual School program.

In the State of Wyoming, School District buildings are replaced with the approval and funding of the State of Wyoming's School Facilities Commission. Recent replacement school buildings for Campbell County School District include the rural elementary school, Recluse in fiscal year 2008-2009, Hillcrest Elementary in fiscal year 2009-2010 and the Stocktrail Elementary school replacement, renamed Prairie Wind Elementary, in fiscal year 2010-2011. The new Buffalo Ridge Elementary school opened for the 2012-2013 fiscal year. The District is working with the School Facilities Commission for replacement of the current Lakeview Elementary and the alternative high school, Westwood.

School staff, including part time, totaled 1,607 in 2011-2012. Of the total, 789 were certified staff including teachers, specialists, and administrators. Non certified staff including clerical, custodial, food services, aides, maintenance, and bus drivers totaled 818. Staff totals do not include substitutes.

The educational program is the most comprehensive in the region with a broad spectrum of courses in the high schools ranging from basic to general to honors and advanced placement. Recent building renovations and construction projects have produced a pleasant and effective system of school buildings, library media centers, playgrounds, and athletic facilities. Elementary schools have been designed to enhance the neighborhood school concept in the interest of community involvement and effective instruction.

As an independent School District, the Board of Trustees for Campbell County School District No. 1 is composed of seven citizens each elected to a four-year term. Based upon legislative authority codified in the Wyoming Education Code, the trustees: (1) have the exclusive power to manage and govern the District; (2) can acquire and hold real and personal property, sue and be sued, and hold all rights and titles to the school property, (3) shall have the power to levy and collect taxes and to issue bonds, (4) can contract for appointed officers, teachers and other personnel as well as for goods and services, and (5) have the right to eminent domain to acquire real property necessary for the District.

The purpose and responsibility of Campbell County School District No. 1 is to provide an efficient educational system for the children enrolled in public schools within its boundaries, whereby each child has access to programs and services that are appropriate to his or her educational needs. In addition to the

regular educational program, Campbell County School District No. 1 offers comprehensive programs in the areas of vocational education, special education, English as a second language and a full range of compensatory programs.

In the last several years the economy of the State of Wyoming fluctuated due to the volatility in the energy related industries. The major effect on Campbell County School District No.1 has been significant fluctuations in county property values. (See Table 6 in the Statistical Section, Assessed Value and Estimated Actual Value of Taxable Property).

At first glance the national recession is not all that apparent when looking at the District's financial statements. The average daily membership has risen 14.7 % over the past ten years, and the District enrollment projection, provided by the Middle Cities Education Association, is for this trend to continue for at least the next five years. Campbell County's assessed valuation has more than doubled to \$5,425,565,207 over the past ten years. The June 2012 unemployment rates were 8.4% nationally, 5.6% for the State of Wyoming, and 4.6% for Campbell County, Wyoming. However, when comparing the percent of District students eligible for the Free/Reduced Federal Food Program, signs of the national recession may be seen. Over the past ten years the percent of the student population eligible for the Free/Reduced Federal Food Program went from 22.64 % to 32.48%. (See Table 15 in the Statistical Section, Operating Information for Campbell County School District, for more information)

#### **MAJOR INITIATIVES**

**During the year:** Campbell County School District No. 1 continues to be a leader in Wyoming as the state itself continues to be a national leader in public education.

#### **Testing**

During the year, Campbell County School District No. 1 participated in the Proficiency Assessment for Wyoming Students (PAWS). Tests in reading and math were administered to students in grades three through eight and grade eleven. Science tests are only administered in grades four, eight, and eleven. The figure below indicates the percentage of students who scored proficient or better on PAWS. A comparison of district versus statewide percentages is provided.

Advanced			10.4%	12.0%							4.8%	10.0%	10.5%	15.0%

The average American College Testing (ACT) composite score for Campbell County School District No.1 graduating class of 2012 was 19.3; 19.8 for the Campbell County High School, 17.7 for Wright Junior/Senior High School and 16.1 for Westwood High School. State and national averages were 20.3 and 21.1, respectively.

During 2011-2012, an average of 94.17% of Campbell County School District No. 1 students attended class each day, compared to 93.71% in 2010-2011, 93.63% in 2009-2010 and 94.26% in 2008-2009. Students absent for school-sponsored academic or athletic activities were not considered absent for attendance purposes.

School district dropout rates are calculated by the Wyoming State Department of Education. The District's last calculated secondary enrollment drop out rate for the 2009-2010 school year was 2.96%. Several interventions contribute to this relatively low dropout rate. The District's alternative high school, Westwood High School has been very successful in recruiting students at high risk of becoming dropouts. Many students complete their education in this alternative setting who would not have succeeded or returned to our other high schools. Over the past ten years, 853 students have graduated with regular diplomas from this school.

## GASB 34 Reporting Model and GASB 54 Fund Balance Reporting and Governmental Fund Type Definitions

The Governmental Accounting Standards Board (GASB) established a financial reporting model for state and local governments in GASB No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Campbell County School District No.1 was required to adopt this reporting model for its fiscal year 2003 annual report.

GASB Statement No. 34 basically established requirements for school districts' annual financial reports. Following are the main financial report changes:

- Management's Discussion and & Analysis (MD&A), is primarily a narrative introduction, overview and analysis to the basic financial statements, and can be found starting on page 3 in the Financial Section after the Independent Auditor's Report. The MD&A is a complement to this letter and should be read in conjunction with it.
- > District-wide Financial Statements, also known as the Government-wide statements, which reports a clearer picture of the organization as a single unified entity. These new financial statements, the Statement of Net Assets and the Statement of Activities complement rather than replace traditional fund-based financial statements and must distinguish between governmental and business-type activities of the primary governments and its discretely presented component units by reporting each in separate columns. Fiduciary activities, whose resources are not available to finance school programs, are excluded from these reports.
- > Fund Financial Statements which require districts to report information about their most important or major funds separately and with their non major funds combined. Campbell County School District No. 1 has one major fund, the General Fund, meeting the major fund criteria for these reports.
- > Required Supplementary Information (RSI) other than the MD&A includes the Funding Progress for Retiree Health Plan, Combining Statement & Individual Fund Schedules.

GASB Statement No. 54, issued March 2009, enhances how fund balance information is reported on the financial statements. It established newly defined fund balance categories of; *non spendable*, for assets such as inventories; *restricted*, for constitutional stipulated specific purposes, external resource providers, or enabling legislation; *committed*, for money to be spent by formal District actions; *assigned* and **unassigned** based on the relative strength of the constraints of how they can be spent. June 14, 2011, Campbell County School District No.1 adopted Policy 3101 Spending Prioritization, committing to the new fund balance classifications.

#### INTERNAL AND BUDGETARY CONTROL

In developing, evaluating, and improving the District's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

As a recipient of federal, state and local grants, Campbell County District No.1 has the responsibility for proving an adequate internal control structure to ensure compliance with applicable laws and regulations related to these grants. This internal control structure is subject to periodic review and revision by management.

Campbell County District No.1 has adopted Board of Trustee policies that specify how state and district student performance standards have affected planning for facilities and annual budget priorities beyond fixed costs. The programs provided have been determined to be sufficient for students to meet state and district content and performance standards. The administration monitors building operations to assure all legal requirements, whether federal, state, or local, are met in each school.

To help meet the requirements of the *No Child Left Behind Act* the District is providing additional resources to each school based on their individual improvement plan. Each school has developed an improvement plan based on examination data of student assessments.

Campbell County District No.1 utilizes a line item budget of proposed expenditures and the means of financing them. The emphasis of the budget process is to identify the activities requiring resources and to rank administratively those activities according to the needs of the entire District. Budgetary control is maintained by the Finance Department at the function level by organizational unit. Purchase commitments, personnel actions, or other obligations which would result in an overrun of appropriated funds are not released until additional appropriations are made available.

Detailed reports are available to building principals and supervisors showing the status of budgets for which they are responsible. These reports summarize the transactions and remaining budgeted funds allocated for goods and services among the programs so managed.

#### **CASH MANAGEMENT**

The Wyoming Education Code of 1969 (as amended - 1999) outlines the instruments which may be used for the investment of public funds (W.S. 9-4-831).

Interest earnings on investments during the 2011-2012 school year for all governmental funds of \$87,243 represented 0.0564 percent of the District's total governmental revenues. All cash and certificates of deposit of the District were at all times either insured by the Federal Deposit Insurance Corporation (FDIC), or were secured by collateral of at least 105 percent.

#### RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Coverage and related deductibles for commercial insurance for claims and risks of loss are listed in Figure Two.

Figure Two

Summary of Insurance Coverage		
Type of Claim	Coverage	Deductible
Claims governed by the Wyoming Governmental Claims Act: Each general liability claim to any claimant for any number of claims arising out of single transaction/occurrence For all claims for all claimants arising out of a single transaction/occurrence	\$ 250,000 \$ 500,000	 
Claims not governed by the Wyoming Governmental Claims Act: Each general liability claim	\$ 2,000,000	
Buildings and contents	\$200,000,000	\$ 5,000

Campbell County District No. 1 carries faithful performance/honesty bond coverage on all employees in the amount of \$250,000. The bond covers losses to the District through dishonesty of an employee acting alone or in collusion with others. In addition, the District's Board Treasurer is properly bonded.

The District has elected to provide medical, dental and prescription insurance benefits for its employees working 20 or more hours per week with employee contributions based on the employee's type of coverage (Single, Employee+Spouse, Employee+Dependent(s), or Family) through a self-funded group program. The medical and prescription insurance coverage was purchased directly from the Wyoming School Board Association Insurance Trust. The dental insurance coverage was maintained by the District with Delta Dental providing the third party administration. Starting January 1, 2012, employees taking the District's insurance were given two plan coverage options, a high deductible plan, or an HSA eligible high deductible plan. Non voluntary plans paid by the District for all regular employees working 20 or more hours per week include; an accidental death policy for all employees based on annual salary with a minimum of \$10,000 and a maximum of \$50,000; a life insurance policy, based on annual salary with a minimum of \$10,000 and a maximum of \$50,000; short and long term disability coverage providing 60 percent of an employee's monthly salary, with a maximum of \$5,000 per month.

In addition, voluntary plans with premiums paid entirely by the employee include: a vision service plan, term life insurance plans, supplemental health insurance plans, and tax sheltered annuities.

#### INDEPENDENT AUDIT

The financial statements of the District are audited annually by independent certified public accountants selected by the Board of Education. The independent auditors' report has been included in this report.

#### RECOGNITION FOR FINANCIAL REPORTING

The Association of School Business Officials International (ASBO) awarded Campbell County School District No.1 a Certificate of Excellence in Financial Reporting for its Comprehensive Annual Financial Reports for all fiscal years ended June 30, 1991 through June 30, 2011 consecutively.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Excellence is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Excellence Program requirements, and we are submitting it to the Association of School Business Officials International.

#### **ACKNOWLEDGMENTS**

The preparation of this report on a timely basis could not be accomplished without the diligent and dedicated services of Rhea Betts, the District's Accounting Manager, and we would like to express our appreciation for her contribution. Also, we would like to express our appreciation to other departments, schools, and individuals who assisted in its preparation. Moreover, we wish to thank and express appreciation to the administrators and other employees of Campbell County District No.1 for their interest and support in planning and conducting the financial affairs of the District in a responsible and progressive manner.

Respectfully submitted,

Alex Ayers, Ed.D.

Associate Superintendent for Instructional Support

#### INDEPENDENT AUDITOR'S REPORT

Governing Board

Campbell County School District No. 1

Gillette, Wyoming

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of **Campbell County School District No. 1 (District)** as of and for the year ended June 30, 2012, which collectively comprise the **District's** basic financial statements as listed in the table of contents. These financial statements are the responsibility of the **District's** management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of **Campbell County School District No. 1**, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated October 23, 2012, on our consideration of Campbell County School District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 12 and the schedule of funding progress for the Retiree Health Plan on page 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Campbell County School District No. 1's financial statements as a whole. The introductory section, combining and individual and nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Gillette, Wyoming October 23, 2012

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Unaudited)

This section of the annual financial report presents the management's discussion and analysis (MD&A) of the financial performance of Campbell County School District No.1 during the fiscal year ending June 30, 2012. This report should be read in conjunction with the letter of transmittal, in the Introductory Section, and the financial statements. The management's discussion and analysis report provides an overall financial performance review of the District as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

#### **Financial Highlights**

Key financial highlights for fiscal year 2012 are as follows:

- The District's financial status improved. In total, net assets increased \$13,230,932 which represents a 7.417 percent increase from fiscal year 2011.
- Overall revenues of \$160,407,611 exceeded expenses of \$147,176,679.
- General Revenues accounted for \$143,280,607 in revenue or 89.323 percent of all revenues. Program specific revenues in the form of charges for services, and operating grants and contributions for \$17,127,004 or 10.677 percent of total revenues of \$160,407,611.
- As shown in Note 3 G of the Notes to the Basic Financial Statements, the District increased its outstanding long-term debt by \$142,655 or 4.0382 percent.
- The District had \$147,176,679 in expenses; only \$17,127,004 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$143,280,607 were adequate to provide for these programs.
- The General Fund had \$123,267,428 in revenues and \$122,445,272 in expenditures. After Other Financing Sources of \$131,603, the General Fund's fund balance increased \$953,759 over 2011.
- The net assets of governmental activities increased by 7.4323 percent or \$13,244,296 and the net assets of the business-type activity decreased 7.0366 percent or \$13,364.

#### **Overview of the Financial Statements**

This annual report consists of a series of financial statements, and notes to those financial statements, and is followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. These financial statements are organized so the reader can understand Campbell County School District No.1 as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The *government-wide financial statements* and the *fund financial statements* are the two basic kinds of financial statements presented.

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

(Unaudited - Continued)

#### Reporting the District as a Whole

#### Government-wide financial statements

The Statement of Net Assets and the Statement of Activities are the two government-wide financial statements presented. The government-wide financial statements are separated into two categories (Governmental activities and Business-type activities) and provide both short-term and long-term information on the overall financial status of the District. These reports list the District's programs and services in defined function classifications, established by the State of Wyoming, and are presented to answer the reader's question, "How did Campbell County School District No.1 do financially during fiscal year 2012?" Business-type activities are where the District charges fees to help cover the costs of certain services it provides. In the District's case, there is two business-type activities, the Enterprise Fund-Food Service and the Enterprise Fund - CAT/Preschool. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting considers all the current year's revenues and expenses regardless of when cash is received or paid. These two statements also report the net assets and changes in those assets. This change in net assets is important because it tells the reader if the financial position of the District as a whole has improved or diminished.

#### Reporting the District's Most Significant Funds

#### Fund financial statements

The fund financial statements provide the next level of detail by focusing on the individual parts of the District and by reporting the operations in more detail than the government-wide statements. Fund financial statements focus on the most significant funds with all other non-major funds presented in total in one column. Campbell County School District No.1 uses many funds to account for a multitude of financial transactions. The General Fund was the only major governmental fund for fiscal year 2012.

#### Fund Types

Campbell County School District No.1 has three kinds of funds:

#### Governmental funds statements

Most of the District activities are reported in governmental funds, which generally focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are reconciled in the financial statements.

#### Proprietary funds statements

Services for which the District charges a fee are generally reported in the proprietary funds and are reported in the same way as the government-wide statements which offer short and long-term financial information about the activities the District operates like a business. The District has two Enterprise Fund programs, the Food Service and the - CAT/Preschool. The other type of a proprietary fund is an Internal Service Fund. An Internal Service Fund may be used to report activities that provide supplies and services for other programs and activities. The District currently uses the Internal Service Fund to account for the financing and operations of its Health Insurance Fund.

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

(Unaudited - Continued)

#### Fiduciary funds statements

Fiduciary funds are held by the District as the trustee, or fiduciary, for assets that belong to others. The District has two funds in this category; the Agency Funds of Student Activities and Early Retirement. The District is responsible for ensuring the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its own operations.

#### Financial Analysis of the District as a Whole

The Statement of Net Assets provides the perspective of the District as whole. Figure A provides a summary of the District's net assets for 2012 compared to 2011:

Figure A

Figure A		Condensed Sta	tement of No	et Assets			
	Governn Activi		Busines Activ	s-type ities	To School	Total Percentage Change	
	2011	2012	2011	2012	2011	2012	2011-2012
Current and other assets	\$ 238,185,484	\$ 240,343,177	\$ 177,109	\$ 127,379	\$ 238,362,593	\$ 240,470,556	.884 %

Total Liabilities	199,128,619	209,425,269	52,702	95,437	199,181,321	209,520,706	5.191 %
Net Assets							
Invested in capital assets, Net of related debt	136,526,203	157,758,844	65,515	144,616	136,591,718	157,903,460	15.603 %
Restricted	19,993,570	14,114,875	0	0	19,993,570	14,114,875	(29.403)%
Unrestricted	21,680,356	19,570,706	124,407	31,942	21,804,763	19,602,648	(10.099)%
Total Net Assets	\$ 178,200,129	\$ 191,444,425	\$ 189,922	\$ 176,558	\$178,390,051	\$191,620,983	7.417%

The District's combined net assets were greater on June 30, 2012, than they were on June 30, 2011, increasing by 7.417 percent to \$191,620,983 (See Figure A). This overall increase in the District's financial position came from its governmental activities, with its net assets increasing \$13,244,296 and also from a net assets decrease of \$13,434 in its business-type activities.

#### Changes in net assets

The District's total revenues were \$160,407,611. (See Figure B)

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

(Unaudited - Continued)

Of total revenues, property taxes of \$125,323,079 accounted for most of the District's revenue, or 78.1279 percent. Local,

#### **REVENUE SOURCES FOR FISCAL YEAR 2012**

Fund types presented: General, Special Revenue, Capital Projects, Debt Service and Proprietary - Enterprise funds

state and federal aid for specific programs contributed \$12,684,410 or 7.9076 percent, with charges for service of \$4,442,594 or 2.7696 percent, grants and contributions not restricted o f \$17,438,448 or 10.8713 percent. The remainder \$519,080 .3236 percent, resulted from interest earnings, other local revenue, miscellaneous sources.

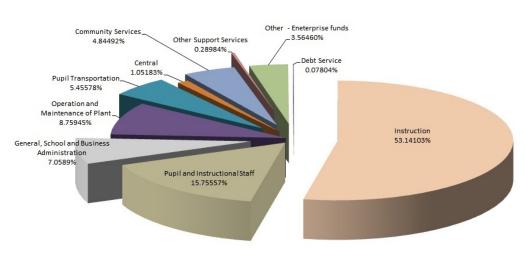

The total cost of all

programs and services totaled \$147,176,679. Of the District's expenses, \$101,399,726 or 68.89660 percent are directly related to the areas of instruction, and pupil and instructional staff. Pupil transportation with costs of \$8,029,636 represents 5.45578

percent, operational and maintenance of plant services costs totaled \$12,891,865 or 8.75945 percent of total expenses. The areas of administration: general, school and business, had expenses totaling \$10,389,118 or 7.05894 percent. Central, which is the office of human resources and the costs associated with the Health Insurance Fund, totaled \$1,548,050 or 1.05183 percent of total expenses, debt service expenses totaled \$114.855 or .07804 percent. Other support services and community services expenses totaling \$7,557,165

#### **Expenses for Fiscal Year 2012**

Fund types presented: General, Special Revenue,
Capital Projects, Debt Service and Proprietary - Enterprise funds

represent 5.13476 percent while the enterprise funds totaled \$5,246,264 or 3.56460 percent of total District expenses.

## MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

(Unaudited - Continued)

Total School District expenses surpassed revenues, increasing net assets by \$13,230,932. This year the governmental activities contributed \$13,244,296 to the School District's financial health while the business-type activities of the Enterprise Funds ended with a reduction of \$13,364 to its net assets.

#### Governmental Activities

#### Revenues

When reviewing Total Governmental specific revenue source changes for 2011-2012 compared to 2010-2011 changes were:

- From local and county sources, an additional \$7,710,243 was received in 2011-2012 over 2010-2011. Increases of \$8,568,514 came from increased assessed valuation taxes, \$12,968 in Rentals and \$3,262 in Charges for Services. These increases were offset by decreases of \$300,318 in Contributions and Donations, \$285,900 in the Miscellaneous area, \$253,541 for Tuition and Fees, and \$34,742 in Interest.
- Revenues from the State of Wyoming increased \$7,366,902 in 2011-2012 compared to 2010-2011. An increase of \$8,788,565 in the Non-Major Capital Projects Funds was offset by decreases of \$397,180 in the General Fund and \$1,024,483 in the Non-Major Special Revenue Funds.
- A reduction of \$1,116,661 was seen in the revenue area from federal sources in 2011-2012 compared to 2010-2011. An increase of \$20,274 in the major governmental fund, General Fund and a decrease in grant funding in the Non-Major Special Revenue Funds of \$1,136,935.

#### **Expenses**

Figure C presents the cost of nine major district activities: instruction, pupil and instructional staff, general, school and business administration, operation and maintenance of plant, pupil transportation, central, other support service, operation of non-instructional services-community support and debt service. The table also shows each activity's *net cost* (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Unaudited - Continued)

#### Governmental Activities - Expenses (continued)

Total cost of governmental activities for 2011-2012 totaled \$141,930,415. To achieve a net cost to the District for governmental activities, monies received from federal and state governments, which subsidized certain programs with grants and contributions, totaling \$11,138,051 and Charges for Services of \$1,717,928 are deducted, bringing the total net cost of services to \$129,074,436.

Specific fund expenditure changes before GASB 34 adjustments for 2011-2012 compared to 2010-2011 showed:

- Expenditures for the Non-Major Special Revenue Funds in total increased by \$404,647 in 2011-2012 compared to 2010-2011. Of the three Non-Major Special Revenue Funds groupings only the Major Maintenance had increased spending of \$3,170,358. Decrease spending was seen by the Campbell County Public Recreation District of \$1,628,776 and an overall decrease in award funding from federal and state grant sources of \$1,136,935.
- General Fund expenditures in total decreased by \$729,932 in 2011-2012 compared to 2010-2011. Spending in areas directly in contact with students had an overall decrease of \$1,108,649; an increase of \$735,514 in the Instruction areas and a decrease of \$1,844,163 in the Pupil and Instructional Staff areas. Other areas with spending increases were; \$47,457 in General Administration , \$1,948 in Business, \$171,409 in Pupil Transportation, \$360,141 in Central, \$49,197 in Other Support Services, \$103,057 in Community Services and in the Debt Service area \$131,634. Areas with spending decreases included School Administration by \$185,468, Operation and Maintenance of Plant by \$35,648 and \$265,010 in Capital Outlay.
- The District had an overall increase in Capital Outlay spending of \$10,377,391. All four Non-Major Capital Projects Funds saw increases; \$182,949 in Capital Construction, \$2,898,038 Depreciation Reserve, \$8,722,156 Major Capital Projects and \$66,409 in the Minor Capital Projects fund. These Non-Major Capital Projects Funds increases totaling \$11,869,552 were reduced by Capital Outlay spending in other areas totaling \$1,492,161; \$265,010 in the General Fund, \$1,171,981 in Special Revenue Funds and \$55,170 in the Debt Service Fund.

#### **Business-Type Activities**

Revenues of the District's business-type activities increased 2.762 percent to \$4,271,234 and expenses rose 5.179 percent to \$5,246,264. (refer to Figure B) Expenses exceeded revenues by \$975,030, before transfers. When including transfers, net assets of the business-type activities decreased \$13,364 or 7.037 percent.

#### Financial Analysis of the District's Funds

#### General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget one time. The reasoning for this budget amendment is one of two categories; budget transfers between function classifications to properly record expenditures and appropriation increases to recognize actual funding received from state and federal sources and to prevent budget over runs.

Although the District's final budget for the General Fund anticipated that revenues and expenditures would result with a deficit of \$16,450,460 which were to be covered by contingency funding, the actual results for the year show a decrease of \$3,722,902. The actual revenues were \$118,722,370 or \$1,493,619 higher than expected. Local and County sources brought in an additional \$4,056,325 while Federal and State sources brought in \$2,562,706 less than budgeted.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Unaudited - Continued)

Actual General Fund expenditures were \$122,445,272, or \$11,233,939 below budget. With the anticipated budget containing a \$1,170,175 contingency, actual expenditures show a savings of \$10,063,764. The General Fund expenditures had no areas exceeding its budget appropriations for fiscal year 2011-2012.

#### **Capital Asset and Debt Administration**

#### Capital Assets

As of June 30, 2012 the District's governmental activities had invested \$261,272,829 before depreciation, in a broad range of Capital Assets, including land, school buildings, athletic facilities, computer and audio-visual equipment, vehicles and administrative offices. This represents an increase of \$28,104,314 or 12.05% from fiscal year 2010-2011. Total depreciation expense for the year was \$7,540,031 which brings total accumulated depreciation to \$100,746,312 for fiscal year ending June 30, 2012. (See Figure D)

Governmental Activities in Capital Assets had net increases in land holdings of \$0; \$3,955,449 in Buildings and Building Improvements; \$144,716 in Improvements other than Buildings; and \$413,159 for vehicles and new equipment. And a net increase totaling \$16,869,929 in the area of Construction in Progress.

At fiscal year end, the District had contractual purchase commitments approximately totaling \$29,339,000, which will be funded by the Special Revenue Fund - Major Maintenance, and the Non-Major Capital Project Funds: Depreciation Reserve Fund and Minor Capital Projects Fund. More detailed information about capital assets can be found in Note 3 C of the Notes to the Basic Financial Statements.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Unaudited - Continued)

#### Debt Administration / Long Term Debt

On June 30, 2012 the District had \$3,675,260 in other long-term debt outstanding or an increase of 4.038 % from June 30, 2011 as shown in Figure E. (More detailed information about the District's long-term liabilities is presented in Note 3 G of the Notes to the Basic Financial Statements.) On June 30, 2012, the District's overall legal debt limit was \$542,556,521 leaving a legal debt margin of \$542,556,521 available.

Total	\$3,532,605	\$3,675,260	4.0382%

#### **Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of a few existing circumstances that could significantly affect its financial health in the future:

- Campbell County is still experiencing an economic boom in its energy industry businesses. The increase of new workers with their families to the area has given the District an influx of students reversing a ten-year student enrollment decline. The District's Average Daily Membership increased by 120 students for Fiscal Year 2011-2012 from Fiscal Year 2010-2011. It is anticipated an increased student population trend will continue for at least the next five years, maybe longer. A few of the District's elementary schools have reached their maximum number of students in certain grade levels causing some students to be bused out of their normal attendance area to other elementary schools capable of handling the additional numbers. With the District's elementary schools quickly reaching their capacity, the Administration is working on a capital facility plan to address current and anticipated future enrollment increases. Two new replacement schools, the new Hillcrest Elementary school, on which construction began in 2008, was ready for occupancy the first day of the 2009-2010 school year, while in September of 2008, construction started on a second new elementary school, Prairie Wind Elementary, which was ready for occupancy in the first day of the 2010-2011 school year. A new, non-replacement school, Buffalo Ridge Elementary, with construction started in May 2011, was ready for occupancy the first day of the 2012-2013 school year. A third elementary replacement school site and design is slowly progressing with school officials hoping for it to be ready for classes in the fall 2014.
- The District's health insurance costs increased significantly during the 2009-2010 fiscal year. District insured claims processed exceeded total premium contributions into the Wyoming School Boards Insurance Trust (WSBAIT) by \$5,441,769. The District's Administration and Board of Trustees covered this overage. District employees saw premium increases starting September 2011 and changes in the Insurance coverage plan options available starting January 2011. On January 1, 2012, the District insurance coverage plans offered to employees changed from either a regular plan or a high deductible plan option to either a high deductible/indemnity plan or a qualified high deductible health plan with health saving account (HSA) plan.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Unaudited - Continued)

In order for Wyoming school districts to receive full school foundation state funding for the upcoming school year, districts must meet the new Wyoming State Statute 21-13-307(a)(iv) [House Enrolled Act 98 (HEA 98) of 2011] 16:1 student-to-teacher class size ratio for Kindergarten through Grade Three. School districts not meeting this new student-to-teacher ratio will be notified each year on or before the first day of March by the Wyoming State Department of Education. Any Wyoming school district not meeting the new class size ratio may request a (a)(iv)(1) waiver, under four conditions: insufficient school facility capacity, positive school performance, positive student achievement, or for other reasons related to the delivery of the education program to students. Campbell County School District was notified by the Wyoming Department of Education it did not meet the 16:1 student-to-teacher ratio required for 2012-2013 fiscal year school foundation state funding. Campbell County School District No.1 applied for and was granted an (a)(iv)(1) waiver for fiscal year 2012-2013 from Wyoming Department of Education on March 19, 2012.

If the District had not been granted the (a)(iv)(1) waiver, the estimated additional cost to meet the 16:1 student-to-teacher ratio for the 2012-2013 school year would have been \$2,125,000 in salary and benefits for 28 additional teachers and classroom set up costs of \$475,000 for textbooks, equipment and supplies.

#### **Contacting the District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the district's accountability for the money it receives. If anyone has questions about this report or needs additional financial information, they may contact the Finance Office, Campbell County School District No.1, 1000 West Eight Street, PO Box 3033, Gillette, WY 82717-3033 or visit the District's web site at <a href="https://www.campbellcountyschools.net">www.campbellcountyschools.net</a>.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2012

Net Change in Fund Balances - Total Governmental Funds	\$ (9,944,146)
Amounts reported for governmental activities in the statement of activities are different because	
Timing differences for the recognition of property and production tax revenues between revenues reported in the funds and revenues reported in the statement of activities.	1,486,294
Governmental funds report capital outlays as expenditures.  However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	21,388,827
Governmental funds recognize gain on sale of capital assets as the sales proceeds received. However, in the statement of activities, this amount is reduced by the remaining net book value of the disposed assets. This is the amount of the net book value of the disposed assets.	(5,574)
Capital lease proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets.	(1,315,677)
An Internal Service Fund is used by Campbell County School District No. 1 to charge the cost of the District's health insurance to individual funds. The net income of the internal service fund is reported with governmental activities.	461,550
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	1,165,065
Decrease in long-term sick leave payable is not reflected in the governmental funds, but increases long-term liabilities in the statement of net assets.	7,957
Change in Net Assets of Governmental Activities	\$ 13,244,296

## CAMPBELL COUNTY SCHOOL DISTRICT NO. 1 NOTES TO THE BASIC FINANCIAL STATEMENTS

#### Note 1. Summary of Significant Accounting Policies

### A. Reporting Entity

Campbell County School District No. 1 (the District), is a political subdivision of the State of Wyoming and provides a broad range of educational services to the youth of Campbell County, Wyoming. It is governed by an elected board of seven trustees. As required by accounting principles generally accepted in the United States of America, these financial statements present the District and its component units, for which the District is considered to be financially accountable. The blended component unit, although a legally separate unit, is, in substance part of the District's operations. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. The component units also have a June 30 year end.

Blended Component Unit - The Campbell County Community Public Recreation District (CCCPRD) provides funding to the Campbell County community for recreation projects, which may include facilities, construction, programs and equipment. The Campbell County School District No. 1 Board of Trustees appoints all five members of the CCCPRD's Governing Board. CCCPRD is fiscally dependent on the District because the District's Board of Trustees must approve annually a 1 mill levy which provides the CCCPRD's funding. CCCPRD is reported as a special revenue fund.

Discretely Presented Component Unit - The Campbell County Board of Cooperative Higher Educational Services (BOCHES) provides a broad range of educational services for adults. The District's Board of Trustees appoints three of the seven members of BOCHES' Governing Board. The Board is fiscally dependent on the District because the District's Board of Trustees must approve annually a .5 mill levy which provides the majority of the Board's funding.

Complete financial information for these component units may be obtained at Campbell County Board of Cooperative Higher Educational Service and Campbell County Community Public Recreation District administrative offices located at 1000 W. Eighth Street, Gillette, Wyoming.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Note 1. Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property and production taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property and production taxes, interest and charges for services associated with current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes.

Major Maintenance - This fund was established by the District in accordance with Wyoming Statutes. This fund accounts for the revenues and expenditures for capital maintenance allocations determined by the Wyoming Department of Education. This fund is being funded by the State.

Campbell County Community Public Recreation District (CCCPRD) - This fund provides funding to the Campbell County community for recreation projects, which may include facilities, construction, programs and equipment.

Title I Neglected and Delinquent - This fund accounts for federal revenues used to assist the District in meeting the special needs of educationally deprived children who reside in areas with high concentrations of children from low-income families, including providing drop-out prevention, coordination of health and social services, and programs to meet the unique educational needs of youth at educational risk, including pregnant and parenting teens, youth who have come in contact with the juvenile justice system, youth at least one year behind their expected grade level, migrant youth, students with limited English proficiency, and gang members.

*Title IIA* - This fund accounts for federal revenues used to support sustained and intensive high-quality professional development for educators in the core academic subjects.

#### Note 1. Summary of Significant Accounting Policies (Continued)

*Drug-Free Schools* - This fund accounts for federal revenues used to support the implementation of drug abuse education and prevention programs.

Carl Perkins - This fund accounts for federal revenues used to develop the technical, vocational, and academic skills of secondary and post-secondary students.

*Part B* - This fund accounts for federal revenues used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

School-Based Health Centers - This fund accounts for federal revenues made available by the Patient Protection and Affordable Care Act in order to support school-based health center efforts to expand capacity to provide primary healthcare services to school-aged children through capital improvements.

ED Jobs - This fund accounts for federal revenues used to save or create education jobs.

*Title III* - This fund accounts for federal revenues used to ensure that Limited English Proficient (LEP) students, including immigrant children, develop English proficiency and meet the same academic content and achievement standards as other students are expected to meet.

McKinney Homeless - This fund accounts for federal revenues used to provide homeless children and youth with an appropriate education and the supplies and other physical needs required to attain the education. These funds are also used to raise the awareness of professional educators to better identify homeless children and youth and to understand their special needs.

21<sup>st</sup> Century CLC - This fund accounts for federal revenues used to develop and implement comprehensive local alcohol, tobacco and other drug prevention plans that will result in the reduction of risk factors, enhancement of protective factors and the reduction of alcohol, tobacco and other drug use.

Learn and Serve - This fund accounts for federal revenues used to support service learning programs in schools that help students in middle school and high school in meeting community needs while improving academic skills and learning the habits of good citizenship.

Safe Schools/Healthy Students - This fund accounts for federal revenues from the SSHS Grant. The SSHS Grant is a collaborative effort in response to rising concerns about youth violence, substance abuse, and school safety. The grant provides solutions through evidenced based programs to fighting, bullying, alcohol and substance abuse, weapons, and other problems so children can better learn, grow and succeed.

*Title IID* - This fund accounts for federal revenues used to improve student achievement through the use of technology in elementary and secondary schools.

Juvenile Mentoring Program - This fund accounts for federal revenues used to support one-on-one mentoring programs for youth at risk of educational failure, dropping out of school, or involvement in delinquent activities, including gangs and drug abuse.

*NASA Wind Energy* - This fund accounts for federal revenues used to infuse NASA-themed science, technology, engineering and math content and activities to middle school students.

#### Note 1. Summary of Significant Accounting Policies (Continued)

Nonmajor Debt Service Fund - This fund accounts for financial resources which was originally to be used for principal and interest payments on general obligation long-term debt. The debt has since been retired; the funds are now restricted for capital projects at the Campbell County High School South Campus, which was the facility the general obligation long-term debt originally funded.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. Following are descriptions of the nonmajor capital projects funds:

Capital Construction Fund - This fund represents monies that was used to add an enhancement, a multi-use room/cafeteria, to the third elementary school. By agreement with the Wyoming School Facilities Department (SFD), the District was responsible for five percent of the construction costs associated with the third elementary school. The remainder of the funding came from the SFD. The District closed this fund during the 2011-2012 fiscal year.

Depreciation Reserve Fund - This fund was established in accordance with Wyoming Statutes. The statutes allow the District to establish reserves for the purpose of purchasing or replacing specified equipment or a depreciation reserve for equipment and school building repair. This fund is funded by transfers from the General Fund.

Major Capital Projects Fund - This fund was established in accordance with Wyoming Statutes. It accounts for money received from the State School Facilities Department which is used to construct new schools.

*Minor Capital Projects Fund* - This fund was established in accordance with Wyoming Statutes. It was created for the purpose of accounting for minor capital renovations and projects less than \$200,000 as determined by the Wyoming School Facilities Department. This fund is being funded by the State of Wyoming.

Additionally, the government reports the following fund types:

**Proprietary Funds** - Proprietary funds focus on the determination of the changes in net assets, financial position and cash flows. The District's proprietary funds consist of two enterprise funds and an internal service fund. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District's enterprise funds are the Food Service Fund which accounts for the financial transactions related to the food service operations of the District and the CAT/Preschool Fund, which accounts for before and after school child care services. The internal service fund accounts for operations that provide services to other funds of Campbell County School District No. 1 on a cost-reimbursement basis. The District uses the internal service fund to account for the financing and operations of the District's self-insurance dental plan and for payments of insurance premiums for the third party multiple employer welfare arrangement which provides medical benefits.

*Fiduciary Funds* - The District's fiduciary funds are agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The District also has the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

### Note 1. Summary of Significant Accounting Policies (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the food service enterprise fund are charges for food sales. Operating expenses for the food service enterprise fund include direct food costs, salaries and related benefits, depreciation on capital assets and other administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The principal operating revenues of the CAT/Preschool enterprise fund are charges for child care. Operating expenses for the CAT/Preschool enterprise fund include salaries and related benefits and other administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

### D. Assets, Liabilities, and Net Assets or Equity

#### 1. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposit accounts.

The District is authorized by its governing board to invest in obligations of the U.S. Treasury, notes and bonds, agencies of all the U.S. Government that are backed by the full faith and credit of the United States Government, and Government National Mortgage Association mortgage-backed pass-through certificates which are authorized by State Statutes.

Investments (all of which have maturities of less than one year) for the District, as well as for its component units, are reported at fair value.

#### 2. Cash With Fiscal Agent

Cash with fiscal agent represents excess property and production taxes collected by the Campbell County Treasurer for repayment of the District's General Obligation Bonds which were paid off in a previous year. The excess property and production taxes collected and held by the Campbell County Treasurer are to be used for remodeling, repairs and maintenance at the Campbell County High School South Campus, which was built and paid for by the General Obligation Bonds.

#### 3. Inventory

On government-wide and fund financial statements, governmental inventories are presented at average cost which is not in excess of market. Inventory in the General Fund and the Capital Construction Fund consists of expendable supplies held for consumption and are accounted for using the "consumption" method, whereby the costs are recorded as an expenditure at the time the individual inventory items are used.

On government-wide and fund financial statements, proprietary food service inventories are presented at cost. Inventory in the Food Service Fund consists of donated food and purchased food and are expensed when purchased and then adjusted to the end-of-year actual physical inventory count.

### 4. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due From Other Funds/Due To Other Funds". These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities.

### Note 1. Summary of Significant Accounting Policies (Continued)

### 5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective fund.

All capital assets are capitalized at cost and updated for additions and retirements during the year. Buildings and building improvements with an individual cost of less than \$100,000, improvements other than buildings less than \$50,000, and equipment and vehicles with an individual cost less than \$5,000 are not capitalized. Donated capital assets are recorded at their fair market value at date of receipt. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business- Type Activities Estimated Lives
Buildings and building improvements	7 - 50 years	N/A
Improvements other than buildings	15 - 20 years	N/A
Equipment and vehicles	5 - 20 years	5 -20 years

### 6. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means, such as payment for unused accumulated vacation leave upon termination of services. The District records a liability for accumulated unused vacation time when earned for all eligible employees. The amount due for unused vacation leave is included in accrued compensation in the government-wide statements. The District anticipates that this amount will be liquidated using currently available resources. Therefore, the entire amount is included in accrued compensation in the governmental fund financial statements.

The District's sick leave reimbursement policy allows an employee who leaves the District to be reimbursed for unused accumulated sick leave. The amount that is actually due at year-end is recorded as a payable in the General Fund. Due means the employee has applied for the leave but has not received payment at year end. Amounts not due at year end are recorded as long-term debt in the government-wide statement of net assets.

#### 7. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

### Note 1. Summary of Significant Accounting Policies (Continued)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Long-term capital leases, the portion of sick leave payable, and the unfunded net OPEB (other than pension postemployment benefits) obligation that has accrued but not yet been applied for that will be paid from governmental funds are recognized as liabilities in the government-wide financial statements.

#### Fund Balance

The District reports fund balance in its governmental funds based on hierarchy of classifications that are primarily based on the extent to which the District is bound to honor constraints on the specific purpose for which amounts can be spent. The fund balance classifications used by the District's governmental funds are as follows:

Nonspendable fund balances - Those balances representing amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to remain intact. The not in spendable form criteria includes items that are not expected to be converted to cash. The amounts reported as nonspendable fund balances are determined before classifying the amounts as restricted, committed, or assigned.

Restricted fund balances - Those balances representing amounts that are externally restricted by creditors, grantors, contributors, or laws or regulations of other governments. Restrictions can also be imposed through law, constitutional provisions, or enabling legislation. Restricted fund balances are reported by the District's governmental funds.

Committed fund balances - Those balances representing amounts that can only be used for specified purposes as imposed by formal actions of the District's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use through the same formal action.

Assigned fund balances - Those balances representing amounts that are constrained by the District to be used for a specified purpose. These amounts are neither restricted nor committed. The authority for making or changing an assignment of fund balance is not required to be made by the District's highest level of decision making as are committed fund balances. Assigned fund balances represent all remaining amounts that are reported in all the governmental funds except for the General Fund. Assigned fund balances are not classified as nonspendable and are neither restricted or committed.

*Unassigned fund balances* - Those fund balances representing the remaining classification for the General Fund. This balance represents the fund balance of the General Fund that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. If expenditures incurred for specified purposes exceed the amounts restricted, committed, or assigned for those purposes, a negative unassigned fund balance may be reported.

#### 9. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

#### Note 1. Summary of Significant Accounting Policies (Continued)

#### 10. Property and Production Tax Revenues

Property and production tax revenues represent property and production taxes for 2011 and prior years which are collectible during the year ended June 30, 2012. Property is annually valued and assessed January 1. Property and production taxes are levied by the first Monday of August and payable in two installments on September 1 and March 1. These installments become delinquent and thus payable, on November 10 and May 10. The taxpayer may elect, without penalty, to pay the entire balance on December 31. If not paid, property and production taxes attach as an enforceable lien on property as of May 11. Property and production tax revenues are recognized when levied to the extent that they result in current receivables, which means when collected within the current period or expected to be collected within 60 days of the fiscal year end to be used to pay liabilities of the current period on the financial statements. Property and production taxes which are not current receivables are offset by deferred revenues. Property and production taxes are collected by the County Treasurer and remitted to the District in the month following that of collection.

#### 11. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### Note 2. Stewardship, Compliance and Accountability

#### A. Budgetary Data

Budgets for the Special Revenue, Debt Service and Capital Projects Funds are prepared on the same basis and using the same accounting practices as are used to prepare the financial reports. The budget for the General Fund is prepared on the same basis used to prepare the financial report with the exception that payments to the State Foundation Program are budgeted on the cash basis of accounting.

On or before the last Thursday of March each year, all agencies and departments of the District submit requests for appropriations to the finance department so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

Before May 15, the proposed budget is presented to the District's Board of Trustees for review. The District's Board of Trustees holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the finance department, or, the revenue estimates must be changed by an affirmative vote of the majority of the District's Board of Trustees.

Unexpended budgeted amounts lapse at the end of the budget year. Budgetary control is established at the department level (instruction: regular, special, vocational, other; support services: pupil, instructional staff, general administration, school administration, business, operation and maintenance of plant, pupil transportation, central, other support; operation of non-instructional services: community services; capital outlay; debt service: principal and interest) for the General Fund and at the fund level for the Special Revenue Funds, Debt Service Fund and Capital Projects Funds. Management control is exercised at the budgetary line item level. The District may amend its budget after it is approved using the same procedures necessary to approve the original budget. Over the course of the year, the District revised the annual budget once. These budget amendments fall into two categories: budget transfers between function classifications to properly record expenditures and increases in appropriations to recognize actual funding received from state and federal sources and to prevent budget over runs. The amounts reported as the original budgeted amounts in the budgetary statements reflect appropriation in the first complete appropriated budget. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations.

### Note 2. Stewardship, Compliance and Accountability (Continued)

#### B. Budget/GAAP Reconciliation

Budgetary comparisons in the financial statements are presented on a budgetary basis. Adjustments necessary to reconcile the General Fund revenues at the end of the year on the budgetary basis to actual are as follows:

	Revenues
Budgetary basis	\$118,722,370
Adjustment for State Foundation Program payable at June 30, 2011	8,231,458
Adjustment for State Foundation Program payable at June 30, 2012	(3,686,400)
Generally accepted accounting principles basis	\$123,267,428

#### Note 3. Detailed Notes on All Funds

#### A. Deposits and Investments

<u>Deposits</u> - Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy requires all acceptable securities pledged as collateral must have a fair market value equal to or exceeding 105 percent of total deposits, including any accrued interest, less the amount of Federal Deposit Corporation Insurance (FDIC), unless an exception is specifically granted by the Board of Trustees or an authorized representative of the Board.

Deposits of the District were covered in their entirety by federal depository insurance and collateral held by the District's agent under a joint custody receipt in the District's name at June 30, 2012.

<u>Investments</u> - As of June 30, 2012 the District had the following investments:

Investment Type	Fair Value	Credit Quality Ratings	Weighted Average Maturity (Days)
Primary Government Wyoming Government Investment Fund	\$43,754,018	AAAm	52
Fiduciary Funds Wyoming Government Investment Fund	\$ 603,192	AAAm	52
Component Unit Wyoming Government Investment Fund	\$ 105,061	AAAm	52
Total Investments	\$44,462,271		

#### **Investment Policies**

Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. Investing is performed in accordance with investing policies adopted by the governing board complying with State Statutes. District funds may be invested in obligations of the U.S. Treasury, notes and bonds, agencies of the U.S. Government that are backed by the full faith and credit of the United States Government and Government National Mortgage Association mortgage-backed pass-through certificates. The investments held by the Wyoming Government Investment Fund are rated by Standard and Poors.

#### Note 3. Detailed Notes on All Funds (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District does not address interest rate risk in its investing policy except to invest in investments which secure a maximum yield of interest revenues to supplement other revenues and support the educational programs of the District. Currently there are no restrictions on when the District can withdraw or contribute money to its current investments. The Wyoming Government Investment Fund invests in a wide variety of investments which are all allowed under State Statutes. The weighted average maturity of this fund is 52 days at June 30, 2012.

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in open-end mutual funds and external investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form, and therefore, the District is not exposed to custodial credit risk.

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from the concentration of credit risk disclosure requirements. The District does not address concentration of credit risk disclosure in its investment policy.

#### B. Taxes Receivable

Receivables as of year end for the District's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Non-Major Fund Funds Total
Taxes Receivable for 2011 and Prior Years	\$ 4,237,363 \$ 137,395 \$ 4,374,758
Estimated Taxes Receivable for 2012 Less: Allowance for uncollectibles	181,011,000 5,839,000 186,850,000 (1,683,588) (54,886) (1,738,474)
Taxes Receivable, Net	\$ 183,564,775 \$ 5,921,509 \$189,486,284

Net taxes receivable of \$189,486,284 for the primary government and \$3,802,126 for BOCHES, the discretely presented component unit on the statement of net assets includes 2012 property taxes of \$186,850,000 and \$3,739,000 respectively. These amounts represent estimated taxes based on the 2012 assessed valuation. 2012 taxes are not levied until the first Monday of August, but there is an enforceable legal claim to the taxes as of the lien date, defined as the January 1 preceding the start of the fiscal year for which the taxes are levied. These 2012 taxes are included in unearned revenue on the statement of net assets and deferred revenue in the fund statements.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

	Unavailable
Property taxes receivable, 2011 and prior years (General Fund)	\$ 1,933,775
Property taxes receivable, 2012 (General Fund)	181,011,000
Other (General Fund)	113,021
Property taxes receivable, 2011 and prior years (Non-Major Funds)	62,509
Property taxes receivable, 2012 (Non-Major Funds)	5,839,000
Other (Non-Major Funds)	11,935
Total Deferred/Unearned Revenue for Governmental Funds	\$188,971,240

## Note 3. Detailed Notes on All Funds (Continued)

## C. Capital Assets

Capital asset activity for the year ended June 30, 2012 was as follows:

	Balance June 30, 2011		Additions		Deductions		Balance June 30, 2012
<b>Governmental Activities</b>							
Non-depreciable capital assets:							
Land	\$ 8,027,589	\$	-	\$	_	\$	8,027,589
Construction in progress	7,728,516	2	27,116,177		(10,246,248)		24,598,445
Total non-depreciable capital assets	\$ 15,756,105	\$2	27,116,177	\$	(10,246,248)	\$	32,626,034
Depreciable capital assets:							
Buildings and building improvements	\$ 173,615,075	\$	9,211,129	\$	_	\$	182,826,204
Improvements other than buildings	26,162,869		1,035,119		-		27,197,988
Equipment and vehicles	17,634,466		1,812,681		(824,544)		18,622,603
Total depreciable capital assets	\$ 217,412,410	\$1	12,058,929	\$	(824,544)	\$	228,646,795
Less accumulated depreciation for:							
Buildings and building improvements	\$ (68,669,860)	\$	(5,255,680)	\$	-	\$	(73,925,540)
Improvements other than buildings	(13,932,821)		(890,403)		_		(14,823,224)
Equipment and vehicles	(11,422,570)		(1,393,948)		818,970		(11,997,548)
Total accumulated depreciation	\$ (94,025,251)	\$	(7,540,031)	\$	818,970	\$	(100,746,312)
Total depreciable capital assets, net	\$ 123,387,159	\$	4,518,898	\$	(5,574)	\$	127,900,483
Governmental activities capital assets, net	\$ 139,143,264	\$3	31,635,075	\$(	(10,251,822)	\$	160,526,517
Business-type Activities							
Depreciable capital assets:							
Equipment and vehicles	\$ 562,003	\$	91,933	\$	(345,033)	\$	308,903
Less accumulated depreciation	(496,488)	•	(12,723)	•	344,924	•	(164,287)
Total depreciable capital assets, net	\$ 65,515	\$	79,210	\$	(109)	\$	

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities	
Regular instruction	\$ 7,424,493
General administration	115,538
Total depreciation expense - governmental activities	\$ 7,540,031
Business-type Activities	
Food service	\$ 12,723

## Note 3. Detailed Notes on All Funds (Continued)

Construction in progress represents construction related to improvements at several schools and the construction of a new elementary school. Actual signed contracts for these projects approximate \$28,628,000 and will be funded by the Major Maintenance Special Revenue Fund, the CCCPRD Special Revenue Fund, the Depreciation Reserve Fund, the Major Capital Projects Fund and the Minor Capital Projects Fund. Contracts signed but not yet started approximated \$711,000 at June 30, 2012.

## D. Interfund Receivables, Payables and Transfers

The composition of due to/from other funds as of June 30, 2012 are as follows:

		Receivable	Payable
Major Funds:			
General Fund	\$	614,335	\$ 208,890
Enterprise Funds:			
CAT/Preschool Fund	\$	49,755	\$ _
Food Service	<b>-</b>	-	75,000
Total Enterprise Funds	\$	49,755	\$ 75,000
Non-Major Funds:			
Special Revenue Funds:			
CCCPRD	\$	158,898	\$ -
Title I - Neglected and Delinquent		-	10,480
Title IIA		-	13,061
Carl Perkins		-	106
Part B		-	15,598
School-Based Health Centers		-	31,145
ED Jobs		-	439,103
Title III		-	3,743
21st Century CLC		-	875
Safe Schools/Healthy Students		-	23,762
Title IID		-	1
NASA Wind Energy		200	-
Capital Project Funds:			
Major Capital Projects		-	1,424
Total Non-Major Funds	\$	159,098	\$ 539,298
	\$	823,188	\$ 823,188

The above interfund balances are principally a reflection of the District's pooling of certain cash and investments in the General Fund.

## Interfund Transfers:

	General	Enterprise	Service	Nonmajor
	Fund	Funds	Fund	Governmental Total
Transfers In	\$ 309,394 \$	961,666 \$	460,166	\$ 71,636 \$ 1,802,862
Transfers (Out)	(1,493,468)	-	-	(309,394) (1,802,862)
Net interfund transfers	\$ (1,184,074) \$	961,666 \$	460,166	\$ (237,758) \$ -

#### Note 3. Detailed Notes on All Funds (Continued)

The primary purpose of material interfund transfers was for the General Fund to make operational transfers to the Lunch Fund and Internal Service Fund.

#### E. Compensated Absences

The District allows its employees one day of sick leave for each month of employment, with the employees being allowed to accumulate sick leave indefinitely. The District allows its employees two days of convenience leave for each year of employment, changing to three days after ten years of employment, with the employees being allowed to accumulate a maximum of three days. The accumulated unpaid convenience leave over the maximum three days allowed will be converted to sick leave at the end of the fiscal year. The accumulated unpaid sick and convenience leave approximated \$17,500,000 at June 30, 2012.

The District's sick leave reimbursement policy allows an employee who leaves the District be reimbursed for unused sick leave according to the following formula:

For days accumulated on or after July 1, 1994:

	61-120 Days	120+ Days
Educational Support Personnel	\$15 per day	\$20 per day
Certified	\$20 per day	\$25 per day
Administrators/Supervisors	\$25 per day	\$30 per day

GASB Statement No. 6 limits the amount of compensated absence liability to be reported in the governmental funds to the amount that is actually due at year-end. Due means the employee has applied for the leave but has not yet received payment at year end. The current liability for this reimbursement at June 30, 2012 is \$-0-. Amounts not due at year end approximating \$415,000 are recorded as a non-current liability due within more than one year in the government-wide statement of net assets.

The District's employees have vested accrued vacation amounting to approximately \$498,000 at June 30, 2012, which has been recorded as a liability. It is anticipated that this amount will be liquidated using currently available resources; therefore, the recorded amount has been charged to expenditures for the year ended June 30, 2012.

### F. Capital Leases

The District has entered into lease agreements for financing the acquisition of transportation equipment. These lease agreements provide for the transfer of title to the District at the end of the leases, and therefore qualify as capital leases for accounting purposes. The leases have been recorded at the present value of the future minimum lease payments as of the inception dates. The leases are cancelable should monies not be appropriated in future years.

## Note 3. Detailed Notes on All Funds (Continued)

The assets acquired through capital leases are as follows:

	Governmental Activities
Equipment and vehicles	\$ 5,187,880
Less: Accumulated depreciation	(1,248,127)
Total	\$ 3,939,753

Payments on these obligations are being made by the General Fund. Annual debt service requirements as of June 30, 2012 are presented below:

	Obligations Under
Year Ending	Capital
June 30,	Lease
2013	\$ 1,114,544
2014	900,776
2015	625,886
2016	283,871
Total lease payments	\$ 2,925,077
Less interest portion	(157,404)
Present value of net minimum lease payments	\$ 2,767,673

## G. Long-Term Debt

Long-term liability activity for the year ended June 30, 2012 was as follows:

	Balance June 30, 2011	Additions	Reductions	Balance June 30, 2012	Due Within One Year
Governmental Activities:					
Capital leases	\$ 2,617,061	\$ 1,315,677	\$ (1,165,065) \$	2,767,673	\$ 1,035,546
Sick Leave Payable	422,544	36,045	(44,002)	414,587	-
Net OPEB Obligation	493,000	-	-	493,000	-
Long-term liabilities	\$ 3,532,605	\$ 1,351,722	\$ (1,209,067) \$	3,675,260	\$ 1,035,546

## H. Legal Debt Margin

At June 30, 2012, the District did not exceed its legal debt margin as shown by the computation that follows:

Assessed valuation	\$5,425,565,207
Debt limit - 10% of total assessed valuation	\$ 542,556,521
Unused legal debt capacity	\$ 542,556,521

#### Note 3. Detailed Notes on All Funds (Continued)

#### I. State Foundation Program Payable

Wyoming State Statutes provide for a determination of amounts to be included in the Foundation Program for each School District. If a District has resources which exceed the Foundation's funding formula, then the District must pay the excess amounts to the State Foundation Program for redistribution to other Districts. Because of this funding formula, Campbell County School District No. 1 must pay \$3,686,400 of amounts received during the year ended June 30, 2012 to the Foundation Program during the ensuing year.

### J. Early Retirement Agency Fund

During prior years the District provided various plans to provide severance to employees who retired early for their years of service to the District. The amount of the severance was based upon current compensation, length of service, and age of employee. Forty-nine individuals are receiving severance payments under these plans as of June 30, 2012.

Annual amounts required to retire the early retirement payable at June 30, 2012 are presented below at their present value assuming interest between .1% and .2%:

Year 1	Ending	June	30.
--------	--------	------	-----

2013 Less interest portion	\$ 391,590 (294)
Present value of future payments	\$ 391,296

#### K. Classifications of Equity

Classifications of equity at June 30, 2012, not disclosed elsewhere and not apparent from the descriptions in the fund statements includes: \$2,292,000 committed for Healthy Schools Education and \$319,000 committed to fund the District's vested sick leave obligation based on District policy, \$1,014,843 restricted for capital projects in the Debt Service fund, and \$7,436,322 reserved for capital projects in the nonmajor capital projects funds.

#### Note 4. Other Information

#### Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchased commercial insurance for claims and risks of loss through the Wyoming School Risk Retention Program Pool. This pool currently includes 19 districts in the State of Wyoming. The coverages for significant items and the related deductible are as follows:

	Amount of		
Type of Claim		Coverage	Deductible
Commercial General Liability			
Occurrence	\$	2,000,000	\$ -
Personal and advertising injury	\$	2,000,000	\$ -
Products-completed operations aggregate	\$	2,000,000	\$ -
School board legal liability	\$	2,000,000	\$ 2,500
Auto Liability			
Each accident	\$	2,000,000	\$ -
Uninsured motorist	\$	2,000,000	\$ -
Under-insured motorist	\$	2,000,000	\$ -

Note 4. Other Information (Continued)

	Amount of	
Type of Claim	Coverage	Deductible
Property		
Building and contents	\$200,000,000	\$ 5,000
Business income without extra expense	\$ 5,000,000	\$ -
Extra expense (per occurrence)	\$ 5,000,000	\$ -
Earthquake	\$ 25,000,000	\$ 5,000
Flood/backup water	\$ 25,000,000	\$ 5,000
Supplemental Coverages		
Electronic data processing equipment, data and media	\$ 50,000,000	\$ -
Accounts receivable	\$ 5,000,000	\$ -
Errors and omissions	\$ 5,000,000	\$ -
Valuable papers	\$ 5,000,000	\$ -
Builders' risk	\$ 10,000,000	\$ -
All construction sites	\$ 10,000,000	\$ -
Contractors' equipment (per item)	\$ 3,000,000	\$ -

Hazardous substance	\$ 2,000,000	\$ -
WHSAA Athletics Catastrophic Accidental Death/Dismemberment		
Accident medical expense	\$ 2,000,000	\$ -

Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The District has elected to provide employee dental benefits through a self-insured program. The District uses an internal service fund to account for and finance its uninsured risks of loss in this program. The dental plan has no deductible for preventative and diagnostic services, \$45 deductible for single and \$90 per family for basic and major services. Basic is covered at 85%, and major at 50%. A third party administrator reviews all claims which the District then pays.

The District has elected to provide employee medical benefits through a multiple employer welfare arrangement through the Wyoming School Board Association Insurance Trust. This Trust has 26 participating school districts throughout the State of Wyoming. As a result of this plan, the District is only required to pay monthly premiums for employees and eligible retirees of the District who elect to participate. This plan provides a medical plan with four levels of available coverage: single, employee plus spouse, family, and employee plus minor children. Participants have two plan coverage options: a high deductible plan or a high deductible/HSA eligible plan. Both plans have a \$2,500 deductible for single coverage and a \$2,500/\$5,000 deductible for all other coverages. For term life insurance and also accidental death and dismemberment insurance, the District covers one times an employee's annual salary, minimum at \$10,000 and maximum at \$50,000. The District also provides short term and long term disability coverage, which provides 60% of an employee's monthly salary with a maximum of \$5,000 per month.

#### Note 4. Other Information (Continued)

The liability for unpaid claims cost of \$40,000 as estimated by the self insurance dental benefits third party administrator based upon claims filed subsequent to year end and historical experience, which is reported in the financial statements at June 30, 2012, is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims, including incurred but not reported claims, be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the fund's claims liability amount are:

	Bala	nce				Balance
	a	t	Current			at
	Begin	ning	Year		Claim	End of
	of Y	ear	Claims	P	ayments	Year
June 30, 2011 to June 30, 2012	\$ 4'	,000 \$	791,250	\$	798,250	\$ 40,000
June 30, 2010 to June 30, 2011	\$ 49	,000 \$	843,798	\$	845,798	\$ 47,000

The District contributes to the Wyoming Worker's Compensation Insurance program. Employees covered by this program are those working in jobs defined by the State as extra-hazardous occupations. Employees covered by Wyoming Workers' Compensation Insurance include: bus drivers, mechanics, safety patrol, chemistry laboratory instructors, home economics instructors, printing department personnel, warehouse personnel, electronics technicians and special programs teacher assistants. This list may be changed as required by State Statutes. All Work Investment Act student employees are covered by Wyoming Workers' Safety and Compensation regardless of job assignment. All other employees of the District are not covered by any form of on-the-job injury insurance.

#### B. Retirement Commitments

The District's full-time employees participate in the Wyoming Retirement System ("System"), a cost-sharing multiple-employer public employee retirement system. The Plan provides retirement benefits at age 60 with early retirement options available. The Plan also provides disability and death benefits. Benefits are established by State Statute. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Wyoming Retirement System, Herschler Building, Cheyenne, Wyoming 82002 or by calling (307) 777-7691.

The System statutorily requires 14.12% of the covered employee's salary to be contributed to the plan. The District has elected to fund both the employer's and employee's share of the required contribution into the plan for its employees. The District's contributions to the System for the years ended June 30, 2012, 2011 and 2010 were \$10,886,000, \$10,571,000 and \$8,358,000 respectively, which were equal to the required contributions for the years then ended.

#### C. Tax Revenues

Approximately 85% of tax revenue for the year ended June 30, 2012 represents production tax based on the value of minerals extracted which may vary from year to year.

### Note 4. Other Information (Continued)

### D. Contingencies

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2012.

#### E. Commitment

The District has committed \$29.6 million toward a new recreation center in Campbell County, Wyoming. This amount includes \$26.4 million of lease payments and \$3.2 million in cash. This facility was constructed by a joint powers board consisting of Campbell County School District No. 1, Campbell County and the City of Gillette. Through June 30, 2012 the District has paid approximately \$15.3 million in lease and cash payments toward this commitment. This commitment runs through June, 2019 and is anticipated to be funded by the CCCPRD's mill levy. The building is owned by Campbell County.

#### F. Recent Pronouncements

In June 2012, the Governmental Accounting Standards Board issued GASB Statement No. 68, <u>Accounting and Financial Reporting for Pensions</u>, which replaces GASB Statement No. 27, <u>Accounting for Pensions by State and Local Government Employers</u> for most government pensions. Statement 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI).

GASB Statement No. 68 is effective for years beginning after June 15, 2014 with the effects of changes made to comply with this statement reported as adjustments to prior periods. The effect that the adoption of GASB Statement No. 68 will have on the financial statements has not been determined.

#### G. Postemployment Health Care Plan

Plan Description - The retiree benefits offered by the District as of July 1, 2010, the actuarial date, were a choice of two medical plans under a multiple employer welfare arrangement and a dental plan. As of July 1, 2007 any District retiree who was hired after June 30, 2007, has been with the District for twenty or more years (the years may be either consecutive or a total accumulation) and is at least 55 years of age is eligible to continue under this plan. Any District employee hired prior to July 1, 2007 who has been with the District for ten or more years (the years may be either consecutive or a total accumulation) and is at least 50 years of age upon retirement is eligible to continue under this Plan. Benefits under these retiree programs cease for the employee and covered dependent(s) once an employee or dependent becomes eligible for Medicare. An employee and/or covered dependent(s) must exhaust all COBRA benefits prior to being eligible for this retiree benefit program. Eligible retirees receive a medical and dental benefit. A summary of the Plan provisions may be obtained at the District's human resources offices located at 1000 W. Eighth Street, Gillette, Wyoming. The retiree health care plan is established and may be amended by the District's board of trustees. The following table provides a summary of participant information at July 1, 2010.

## Note 4. Other Information (Continued)

Number of Participants	
Actives (fully eligible)	389
Actives (not fully eligible)	1,245
Retirees	66
Total participants	1,700

Funding Policy - The contribution requirements of plan members and the District are established and may be amended by the board of trustees. Contribution amounts differ depending on the selected plan. Members receiving benefits contribute \$955, \$881 or \$800 per month for retiree only coverage, \$1,909, \$1,760, or \$1,599 per month for retiree and spouse coverage, \$1,739, \$1,603, or \$1,456 per month for retiree and child coverage, and \$2,315, \$2,125, or \$2,043 per month for family coverage.

Period OPEB Cost and Net OPEB Obligation - The District's period other postemployment benefit (OPEB) cost (expense) is calculated based on the period required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The following tables provide the ARC, and Net OPEB Obligation for the project unit credit cost method on an unfunded basis. The ARC is calculated on a level percentage of earnings assuming an amortization period of 30 years (maximum allowed by GASB 45).

Period Required Contribution (ARC)	
Normal Cost	\$ 173,000
Interest on Normal Cost	8,000
Amortization Payment	146,000
Interest on Amortization Payment	7,000
Total	\$ 334,000

Net OPEB Obligation	
Net OPEB Obligation - Beginning of Period	\$ 456,000
ARC	\$ 334,000
Interest on Prior Year NOO	21,000
Adjustment to ARC	(17,000)
Period OPEB Cost	\$ 338,000
Employer Contributions	301,000
Increase in Net OPEB Obligation	\$ 37,000
Net OPEB Obligation - End of Period	\$ 493,000
Percentage of OPEB Cost Contributed	89%

#### Note 4. Other Information (Continued)

The District's period OPEB cost, the percentage of period OPEB cost contributed to the plan, and the OPEB obligation for the period ended June 30, 2012 and the two preceding fiscal periods were as follows:

Fiscal Period	Period OPEB	Percentage of Period OPEB	Net OPEB
Ended	Cost	Cost Contributed	Obligation
6/30/10	\$ 265,000	106.04%	\$ 456,000
6/30/11	\$ 338,000	89.05%	\$ 493,000
6/30/12	\$ 338,000	89.05%	\$ 493,000

Funded Status and Funding Progress - As of July 1, 2010, the most recent actuarial valuation date, the Plan was unfunded. The actuarial accrued liability (AAL) for benefits was \$3,812,000, and the actuarial value of assets was \$-0-, resulting in an unfunded actuarial accrued liability (UAAL) of \$3,812,000. The covered payroll (annual payroll of active employees covered by the Plan) was \$70,437,579, and the ratio of the UAAL to the covered payroll was 5.14%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the period required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, present multi-year trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and the plan members) and include the types and benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and actuarial value assets, consistent with the long-term perspective of the calculations. The following assumptions were made:

Valuation Date - July 1, 2010.

Discount Rate - A 4.5% period discount rate is used assuming the District will fund the retirement benefit on a payas-you-go basis. The investment return assumption is based on the expected return on employer assets, which generally consist of short-term liquid investments.

Actuarial Cost Method - Projected Unit Credit.

Amortization Method - The UAAL is amortized over the maximum acceptable period of 30 years. It is calculated assuming a level percentage of projected payroll.

Health Care Cost Trend Rate - The following annual trend rates are applied on a select and ultimate basis:

Benefit	Select	Ultimate
Medical	11%	5%

Select trends are reduced by 0.5% each period until reaching the ultimate trend.

### Note 4. Other Information (Continued)

Per Capita Health Claim Costs - Per capita health claim costs are developed from the historical claim experience provided by the District. The expected age 60 per capita health claim costs are presented in the table below:

Per Capita Cost	Age 60
Retiree	\$ 11,642
Spouse	\$ 11,642

Age Based Morbidity - The assumed per capita health claim costs are adjusted to reflect expected increases related to age. The increase in per capita health claim costs related to age are assumed to be the following:

Age	Increase	Age	Increase
42-46	3.19%	65-69	3.00%
47-51	3.89%	70-74	2.50%
52-56	3.58%	75-79	2.00%
57-61	4.52%	80-84	1.00%
62-64	5.06%	85-89	0.05%

Retiree Contributions - Retiree contributions are assumed to increase with healthcare cost trend.

*Non-Claim Expenses* - Non-claim costs are assumed to be 15% of the blended premium equivalent rates. The administrative cost assumed in this valuation is \$1,001 per member per year. The cost is assumed to increase with medical admin trend.

Retirement Age - The probabilities of retirement were developed from the Wyoming State Public Employee Pension Plan as of July 1, 2010. Sample retirement ages and associated probabilities are as follows:

Attained Age	10 Years Of Service
50	10%
60	15%
61	17%
62	25%
63	17%
64	20%
65	35%
66	20%
70	100%

*Termination* - The rates of withdrawal were developed from the Wyoming Public Employee Pension Plan as of July 1, 2010. Sample termination rates are provided below:

	Witho	lrawal ve Years
Service	Male	Female
1	25%	28%
2	18%	22%
3	12%	15%
4	10%	13%
5	10%	12%

Note 4. Other Information (Continued)

	Withd	lrawal
	Ultin	nate
Age	Male	Female
20	10.00%	11.00%
25	10.00%	11.00%
30	10.00%	11.00%
35	4.83%	5.83%
40	4.43%	5.43%
45	4.21%	5.21%
50	4.40%	5.09%
55	4.02%	5.03%
60	4.00%	5.00%

*Plan Participation Percentage* - It is assumed that 30% of all future employees and their dependents who are eligible for benefits participate in the postemployement benefit plan.

Spousal Coverage - The assumed number of eligible spouses is based on the current census information.

Salary Increase Assumption - 3.5% per annum.

Medicare Part D Prescription Drug Subsidy - Based on GASB Technical Bulletin No. 2006-1, an employer should apply the measurement requirements of GASB Statement No. 45 to determine the actuarial accrued liabilities, the period required contribution of the employer, and the period OPEB cost without reduction for RDS payments. For this reason, we have excluded the Medicare Part D employer subsidy from the actuarial valuation.

## REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board

Campbell County School District No. 1

Gillette, Wyoming

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Campbell County School District No. 1 as of and for the year ended June 30, 2012, which collectively comprise Campbell County School District No. 1's basic financial statements and have issued our report thereon dated October 23, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered **Campbell County School District No. 1's** internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **District's** internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **District's** internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, as discussed above, we identified a certain deficiency in internal control over financial reporting, described in the accompanying

schedule of findings and questioned costs that we consider to be a significant deficiency in internal control over financial reporting. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Finding IC 12-1 to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination or deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether **Campbell County School District No. 1's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The **District's** response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the **District's** response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Governing Board, management, the Wyoming Department of Audit, the oversight entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Governing Board

Campbell County School District No. 1

Gillette, Wyoming

#### Compliance

We have audited **Campbell County School District No. 1's** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the **District's** major federal programs for the year ended June 30, 2012. The **District's** major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the **District's** management. Our responsibility is to express an opinion on the **District's** compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the **District's** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the **District's** compliance with those requirements.

In our opinion, the **District** complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as Finding FA 12-1.

#### **Internal Control Over Compliance**

Management of the **District** is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the **District's** internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of the internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the **District's** internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item FA 12-1 to be a material weakness.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses, and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified.

The **District's** responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the **District's** responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the Governing Board, management, the Wyoming Department of Audit, the oversight entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SHUCK, BENNET + WEBER, LLP

Gillette, Wyoming October 23, 2012

#### Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Campbell County School District No. 1 and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133 "Audits of State, Local Governments, and Non-Profit Organizations". Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

#### Note 2. Subrecipients

Of the Federal expenditures presented in the schedule, the entity provided federal awards to subrecipients as follows:

		1	Amount
		P	rovided to
Program Title	Federal CFDA Number	Sı	ubrecipient

For The Year Ended June 30, 2012

(Page 2 of 4)

#### Section II. Findings Relating to the Financial Statement Audit as Required to be Reported in Accordance With Government Auditing Standards Generally Accepted in the United States of America

#### A. Significant Deficiencies in Internal Control

IC 12-1 - Auditor Generates the Annual Financial Statements Including Footnotes

#### Criteria

The Auditing Standards Board (ASB) has issued guidance to auditors related to an entity's internal controls over financial reporting. Many small organizations rely on their auditor to generate the annual financial statements including footnotes. This guidance emphasizes that the auditor can not be part of your system of internal control over financial reporting.

#### Condition

In our judgement, the District's accounting personnel and those charged with governance, in the course of their assigned duties, lack the capable skills to prepare the financial statements and related footnotes in accordance with generally accepted accounting principles (GAAP).

#### Context

As part of the annual audit, the District requests that the auditor prepare the financial statements including footnotes.

#### Effect

A possibility exists that a material misstatement may be missed due to management not preparing the financial statements.

#### Cause

In our judgement, the District's accounting personnel and those charged with governance, in the course of their assigned duties, lack the capable skills to prepare the financial statements and related footnotes in accordance with generally accepted accounting principles (GAAP).

#### Recommendation

In our judgement, management and those charged with governance need to understand the importance of this communication. However, due to the lack of resources available to management to correct this significant deficiency in financial reporting, we recommend management mitigate this weakness by having a heightened awareness of all transactions being reported.

#### Views of Responsible Officials and Planned Corrective Actions

We believe certain individuals within the District's management have the appropriate skills and knowledge to understand the financial statements. Management reviews and approves the financial statements along with the journal entries proposed by the auditor as well as questions various journal entries and financial information, including the notes to the financial statements. We feel that management's knowledge and skills would be able to detect and correct a material misstatement.

#### B. Compliance Findings

There were no compliance findings.

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For The Year Ended June 30, 2012

(Page 3 of 4)

#### Section III. Findings and Questioned Costs for Federal Awards

FA-12-1 - School-Based Health Centers CFDA #93.501

#### Criteria

In accordance with the grant requirements for the School-Based Health Centers grant through the Department of Health and Human Services, the grant recipients are required to abide by the provisions of the Davis-Bacon Act, the Copeland Act, and the Contract Work Hours and Safety Standards Act.

#### Condition

The District was not aware of the requirement to abide by the Davis-Bacon, Copeland, or the Contract Work Hours and Safety Standards Acts.

#### **Questioned Costs**

The amount received through CFDA #93.501 was \$124,416.

#### Context

In the course of auditing federal awards, the auditors noted that the grant required compliance with these Acts and that the construction agreements issued to contractors did not indicate such compliance requirements. Upon discussion with the District, it was determined that they were not aware of the requirements and had not been following them.

#### Cause

The District did not have in place a system to ensure that construction contracts issued with federal grant monies complied with grant requirements. The District also did not have in place the internal controls necessary that would have prevented, or detected and corrected, this compliance requirement on a timely basis.

#### Recommendation

It is recommended that District provide the construction contract administrator with a copy of a grant every time she is asked to write a contract which will utilize funds from a grant. It is also recommended that internal controls be put in place so that all compliance requirements are met on a timely basis.

#### Views of Responsible Officials and Planned Corrective Action

Upon review of the grant award, it was noted that the District was not in compliance with the Davis-Bacon, Copeland, and Contract Work Hours and Safety Standards Act. The District amended the contract with the contractor for the School-Based Health Center, and stopped all payments to the contractor until all requirements of these acts were met including the following:

- 1) Verification of payment of prevailing wages as determined by the U.S. Department of Labor by both the contractor and all subcontractors.
- 2) Posting of wage scale at job site.
- 3) Verification of payment to all laborers and mechanics weekly for the full amount owed.
- 4) Verification of payment of time and a half for all hours worked over forty in one week.
- 5) Submission of a certified statement weekly by CTA Architects of wages paid for work during the preceding payroll period.

The District complied with the provisions of the Davis-Bacon Act (40 U.S.C. Section 276a to 276a-7), the Copeland Act (40 U.S.C. Section 276c and 18 U.S.C. Section 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. Section 327-333), prior to the end of the fiscal year.

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For The Year Ended June 30, 2012 (Page 4 of 4)

#### Section III. Findings and Questioned Costs for Federal Awards (Continued)

As Grant C12CS21803 states that the grant must be in compliance with the Davis Bacon Act, the District's Director of Student Support Services contacted the Federal Project Officer for verification of this requirement. He received conflicting information from the Federal Project Officer for this grant concerning this matter. The response to the District was: "Grant C12CS21803 has no Davis Bacon requirements."

#### SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended June 30, 2012

Prior Year Findings:

FA 11-1 - Juvenile Mentoring Program TY11 CFDA #16.726

#### Criteria

In accordance with grant requirements for the Juvenile Mentoring Program grant through the Department of Justice, quarterly financial status reports are due within 30 days of the end of each performance quarter.

#### Condition

The quarterly financial status report for the quarter ended December 31, 2010 was filed January 31, 2011, one day late; the quarterly financial status report for the quarter ended March 31, 2011 was filed May 5, 2011, five days late.

#### Context

In the course of auditing federal awards, the District's grant administrator brought to the auditor's attention that quarterly status reports for a nonmajor federal direct award had been submitted late.

#### Cause

The District did not have in place a system to track all grant related reprinting requirements.

#### Recommendation

It is recommended that District management devise a system to track all grant related reporting requirements. This would enable management to meet all reporting requirements in a timely fashion.

#### Views of Responsible Officials and Planned Corrective Action

The Administrative Assistant for grants and federal programs, along with the Grant Administrator, have put a schedule in place to ensure that quarterly financial status reports are filed within the filing window.

This finding was corrected during the fiscal year ended June 30, 2012.

Our appreciation is extended to the following for all their assistance and support:
