

5025 Determining Residency and Admission of Non-resident Students

A non-resident student is any student who is not residing within Campbell County. Student residence status will be determined by the physical address of the student's parent(s), court appointed guardian, or person who has been granted legal control over the student.

Non-Resident students may be admitted to Campbell County School District (CCSD) upon such terms and conditions as are deemed in the best interest of the District. The parent or guardian of a Non-resident student may submit a written request to the Superintendent for the student's admittance to CCSD.

ADMISSION

The Superintendent or designee may admit any non-resident student unless such admission would overcrowd the classrooms of CCSD. The decision of whether or not to admit a non-resident student is at the discretion of the Superintendent or designee. Admission may be denied for any reason deemed appropriate by the Superintendent or designee. Admission of non-resident students residing in the State of Wyoming requires approval of both the resident district and CCSD.

In the case of a request for admission to high school by a student who is a resident in a school district within the State of Wyoming which does not maintain a high school, the student shall be admitted unless such admission would overcrowd the facilities of CCSD or in any way impose a hardship upon the educational programs of CCSD. The resident district shall agree to pay tuition, in addition to transportation or maintenance for the child to attend CCSD.

The admission of any student shall be for a period of one (1) school year and the non-resident student shall reapply for admission prior to the beginning of each school year. If a non-resident student is approved for admission mid-year, that student shall reapply for admission prior to the beginning of the next school year and annually thereafter. The Superintendent or designee shall review the request for admission each year, and must approve admission before the student can be admitted or readmitted. In determining whether or not to grant a request for admission or readmission; the Superintendent or designee may consider any factors it deems important including, but not limited to, financial consequences, available staff, available facilities, class enrollment, prior disciplinary problems, prior attendance record, and previous effort to make satisfactory academic progress, among others. Any non-resident student admitted will be deemed to be on strict probation and may be expelled for violation of any laws, rules or policies.

SUSPENDED OR EXPELLED STUDENTS

The District may deny admission to any pupil who has been suspended or expelled from another school district whether located in or outside the state, for the duration of the suspension or expulsion regardless of whether or not the student establishes residency within Campbell County.

TRANSPORTATION

Campbell County School District will not provide transportation for non-resident students except on regular bus routes running within the boundaries of the District. Exceptions to this policy may be made only with the express consent of the Board of Trustees and any adjacent school district which would be affected.

RESPONSIBLE ADULT

Every non-resident student attending CCSD will be required to have a person of adult age agree to be responsible for the student with regard to all educational decisions and who can authorize emergency medical treatment and care.
