

5070-R Building Intervention Team

FUNCTIONS

At a minimum, the Building Intervention Team is responsible for:

- Reviewing, addressing and identifying areas of educational concern;
- Developing, evaluating and documenting intervention efforts for students referred to the Building Intervention Team;
- Monitoring the intervention progress to determine:
 - The fidelity with which instruction and intervention is provided,
 - Results of the intervention,
 - Alignment of the intervention to the educational concern,
 - The training and qualifications of the staff providing the instruction and intervention,
 - The manner in which outcomes are shared with parents; and
 - Recommending further evaluation, as necessary, based on the intervention review.

MEMBERSHIP

The composition of the Building Intervention Team will vary according to the needs of the individual student. At a minimum the Building Intervention Team shall include at least two certified regular education staff members assigned to the school, a person who is knowledgeable of interventions in the area of concern, and the school principal or designee. The chairperson shall be the principal or designee.

The principal or designee ensures a member of the committee or the student's teacher communicates with each student's parent(s) and documents the communication. Communication includes information about the building intervention process and the interventions.
