

5129 Student Fundraising and Solicitation

The purpose of this policy is to set limits on fundraising events to protect students and prevent the exhaustion of both the resources and good will of the school community.

The Board of Trustees recognizes the importance of organizations within Campbell County School District being afforded the opportunity to raise funds or solicit financial support. Fundraising and solicitation done by Campbell County School District groups will be subject to the procedures stated in administrative regulation 5129-R, Student Fundraising and Solicitation.

Solicitation of businesses in the county by any school or school organization for donation of monetary funds (i.e. U.S. dollars) is discouraged and must be done only on a very limited basis. The superintendent must approve such requests.
