

5202 Epinephrine Stock Auto-Injectors

Campbell County School District may acquire, maintain, and dispense to schools within the District, a supply of epinephrine auto-injectors. The school nurse and/or other staff members, as may be designated by school administration, may administer a stock epinephrine auto-injector to a student whom the school nurse or assigned personnel in good faith believes is experiencing a severe allergic reaction.

The District will implement a plan based on the Wyoming Department of Education School Guidelines for the Management of Students with Life-Threatening Allergies. The District's plan will be made available on the District's web site or the web site of each school within the District.

Adoption Date: June 10, 2014, Revised September 14, 2021
