

7100-R Section 1, Student Resource Access

Google Workspace for Education is a free, web-based suite of programs available for staff and students in Campbell County School District. *Google Workspace for Education* provides our students practice in using current technology applications and tools to communicate, collaborate, create, and apply critical thinking.

In Campbell County School District, access to *Google Workspace for Education* is determined by grade level.

- Grades JK-6 will have their own username and password providing access to Google Apps Core Services e.g. word processing, drawing, presentation, forms, and spreadsheet programs. All elementary email accounts are turned off.
- Grades 7-12 will have their own username and password providing access to Google Apps Core Services and Additional Services e.g. word processing, drawing, presentation, forms, spreadsheet and email programs. In the event parents do not want their secondary students to have access to Google mail, they must contact their school administrator to discuss their concerns.

A list of District approved Apps for Google, Apple, and Chromebook devices are available for review at the educational technology department.

Schoology is the District's Learning Management System utilized by schools and course teachers to provide a centralized product allowing administrators, students, and guardians to access educational resources, communication, and outcomes of the learning environment. All students will have an account with a username and password. Internal communication will be managed to allow students and guardians to communicate with the classroom teacher but not with other members of the system.
