

7100 Technology

Campbell County School District (CCSD) supports the positive and productive use of technology. Our purpose in providing technology is to advance educational excellence in Campbell County schools by providing a digital environment that promotes creativity, collaboration, innovation, and communication. It is important to recognize that access to information can result in tremendous advantages, but it can also create new responsibilities of which students and staff should be aware.

Technology use is a privilege, not a right. Administrative Regulation 7100-R Section 3, Technology Acceptable Use, will govern the use of technology devices, digital resources, and network infrastructure. It is enacted to provide the parents, students, and staff of CCSD with a statement of purpose and explanation of the use of technology within the CCSD learning community. It is to be read and signed before accessing technology resources in the District.

Because information technology is constantly changing, not all circumstances can be anticipated or addressed in this policy. All users are expected to understand and comply with both the “letter” and the “spirit” of this policy and show good judgment in their use of these resources.

DEFINITIONS

- **Technology:** May include the devices, digital resources, and network infrastructure used within the District. This could include but is not limited to the CCSD network, the Internet, Google Apps for Education, email, hardware, software, printers, peripheral devices, individual computer devices, and web enabled devices.
- **Information technology:** Includes Internet access, blogging, podcasting, email, published and non-published documents, and various forms of multimedia technology.
- **Educational use:** A use supporting communication, research, and learning
- **Devices:** Includes District owned/leased devices, staff owned devices, and student owned devices.
- **COPPA** (Children's Online Privacy Protection Act): A law created to protect the privacy of children under 13.
- **CIPA** (Children's Internet Protection Act): A law requiring K-12 schools and libraries in the United States to use Internet filters and implement other measures to protect children from harmful online content as a condition for federal funding.
- **Digital Citizenship:** The norms of appropriate, responsible behavior with regard to technology use.
- **Social Media:** Online services and tools used for publishing, sharing and discussing information. Social media is any form of online publication or presence allowing interactive communication.

ADOPTION DATE: Adopted May 11, 2021, and rescinded Policy 3710, Network Security; and Policy and Administrative Regulation 4510, Technology: Security, Sharing of Resources, and Technology Acceptable Use
