

Administration and the Policy Committee recommend rescinding the following policy. This is an antiquated policy as this is standard procedure for extended day contracts.

~~4055 Extension of Contracts~~

~~Extended contracts for positions where extensions are authorized by Board action will be paid on a daily rate basis arrived at by dividing the individual employee's base contract salary by the number of work days in the contract for the appropriate budget year.~~

~~Building principals are to submit requests for additional days in their Education Plans. Once Education Plans are approved, extended contracts will be issued to the individuals involved.~~
