Note from CCSD Technology Dept: JAMF is the multi-device management (MDM) for Apple devices. The district is using a WDE SEA grant to pay for the CARES ipads for a one-time lifetime license, as the district will be using those for many years. The other Apple devices are at various stages in usage so those will be one a annual plan license for management. This update to our MDM, which we have had for numerous years, but will now put our Apple devices into an actual Apple MDM system. This system allows the district and school to manage all of the thousands of Apple devices from a single source by updating, installing apps, and organizing the resources for appropriate grade/school access.
